World History - Virtual Plan

1. Google Classroom- Should be the first place the student looks every day. Lessons for each day will be on google classroom timeline, with instructions for what to complete on Google Classroom or Edgenuity that day. There may also be times when we will use google classroom to submit work for a research project or essay of some sort. We will type this on a google document and submit it that way.

2. Edgenuity- Online curriculum which contains videos, guided notes, assignments, quizzes, and tests that the students will be required to do on a timeline basis.

3. Google Meet- Will be used for some instruction, lectures, videos, and time for answering questions.

Please be aware that assignments are a combination from both Edgenuity and Google classroom, which will both show you a grade but the one that counts will be displayed on Wengage.

Percentage of grade breakdown will be Test- 35%, Daily Assignments- 30%, Quizzes- 35%

Note that Edgenuity is an online curriculum that is very strict on the timeline basis, it will show each student how much work and how much time they will have to spend on each day to keep up. It will notify you when you are behind and when you're ahead of schedule. LATE ASSIGNMENTS will result in a loss of 5 points from your total grade for that assignment.

I know things come up and you might not get to work on classwork one day just keep in contact with me and I can work with you, but if you don't let me know then I can't help you.
