

English II, III, and IV – Virtual Plan

English II, III, and IV will use the following materials and methods for virtual learning:

1. Google Classroom – all assignments will be posted here. It will direct students to Edgenuity or the IXL programs and will be used to give some writing assignments.
2. Edgenuity – an online curriculum which contains videos, guided notes, assignments, quizzes, and tests. The primary emphasis in the English curriculum is literature.
3. IXL – an online English curriculum which gives instruction and practice in reading and writing strategies, vocabulary, grammar, mechanics, and test/ACT preparation.
4. Google Meet or Zoom – will be used as needed for instructional time and answering questions.

Grades will be given for Google Classroom, Edgenuity, and IXL assignments. Unit tests and lengthy writing assignments (example: the research paper) will create 50% of the grade. Daily assignments, quizzes, and short writing assignments will be averaged together to equal 50% of the grade. The grade which shows up on the Wengage program is the student's ACTUAL grade. At least 2 grades per week will be recorded in Wengage.

I can be contacted through Google Classroom, the school email, phone, or text.
