Negative Test

Return to school once there are no symptoms
for 24 hours.

Individual is Not Tested

Stay in self-isolation for at least 10 days since the onset
of symptoms and until at least 24 hours have passed with
no fever (without fever reducing medications) and with
improvement of other symptoms.

**Can return to school earlier if note is obtained from healthcare
provider with alternate diagnosis.**

Positive Test

Stay in self-isolation for at least 10 days since the onset
of symptoms and until at least 24 hours have passed with
no fever (without fever reducing medications) and with
improvement of other COVID-19 symptoms.

STAY HOME
& **GET TESTED**

Negative Test

Remain home in self-quarantine for 14 days from last exposure
to the person diagnosed with COVID 19.

Individual is not tested

Remain home in self-quarantine for 14 days from last exposure
to the person diagnosed with COVID 19.

Positive Test

Stay home in self-isolation until 10 days have passed
since the date of the positive COVID 19 test.

SYMPTOMS: feeling feverish, measured temp 100.4 F or more, chills, uncontrolled new cough, shortness of breath, difficulty breathing, loss of taste or smell.

CLOSE CONTACT: within 6 feet of an infected person (confirmed COVID-19) for a total of 15 minutes or more over a 24-hour period, or a direct exposure to possibly infected droplets of saliva or nasal mucus (e.g., being sneezed or coughed on in the face).
