

Hello Rocket Families,

We are ready to start a new chapter in the Reeths-Puffer Community by launching Rocket Virtual. You are currently part of a virtual school that has over 800 students from our community enrolled in the K through 12th grade virtual version of Reeths-Puffer Schools. This will add to a rich Reeths-Puffer academic history. We are the pioneers of this new chapter. We will hit bumps and setbacks but we will work together to build this Rocket Virtual program together with Edmentum.

Upcoming weeks will be with a Rocket Virtual “Soft Start” similar to our Face to Face school.

First Week: September 8 - 11

- You will receive 2 emails from Edmentum that will have your login and access to the Edmentum student system to begin familiarizing yourself with the learning environment.
- Make sure that you have a device and internet to access the Edmentum platform.
- You should watch any tutorial videos and support resources to help with the login and access process provided on the [Edmentum Website](#). K-5 Exact Path and Calvert Learning, 6-12 Edoptions
- You will have a minimum of two contacts by email or a phone call from your Rocket Virtual Mentor. This person is your connection to Reeths-Puffer schools.
- K-5 - Your student will be assigned to Exact Path which will start with an assessment and build an individual curriculum for your child to engage at their level for the first two weeks.
- 6-12 - Your student will be assigned 1 teacher from Edmentum and begin working with that teacher in the Edmentum program on a limited schedule.
- Reeths-Puffer Rocket Virtual Administrators will be working with you on final class schedule tweaks.

Second Week: September 14 - 18

- K-5 - Your child will remain in the Exact Path curriculum as we make final tweaks to their teacher assignments.
- 6-12 - Your student will have contact from all three of their Edmentum teachers for the semester.
- Your child’s teacher will reach out to you at the elementary level and the other 2 teachers will reach out to you at the secondary level.
- Resolve final class selection needs.

Third Week: September 21 to January 22

- Full online schedule through Rocket Virtual with Edmentum.
- You will continue to have 2 contacts by the Rocket Virtual mentor each week through the semester.
