Comments: This is a good, challenging course to start the season on. 8th graders Payton and Isabelle beat their first race times from last year (on an easier course at Marysville), and Brandyn was within seconds of his. This was Payton's 2nd race win after winning our home invitational last year.

Katelyn and Macy got their first Cross Country race under their belts and now can focus on improving from here on out. We have a smaller Jr High team this year, so they just need to work together and push each other to get a little better each day at practice. It's always fun to see how much progress our Jr High runners make by the end of the season!
