**Comments:** This is a very scenic course, but is one of the more challenging ones we face. We didn't start off as strong in the team standings as we have the past few years, but we'll keep working to close the gap on these teams and we'll look forward to challenging them late in the season. I don't know if any of the runners were really satisfied with their times, but we have to start somewhere. Now we'll look to improve each day in practice and I see lots of upside with this team going forward.
