-Attendance will be taken daily at the beginning of each period during live teaching sessions. It is expected that students will be on time to classes and engaged in learning activities.

-Our distance learning schedule provides 15 minute breaks between each class, a 30 minute breakfast break, and a 45 minute lunch break to help break up their screen time, and to make sure they have time for physical activity.

-We do not have expectations for parents and guardians to teach their students at home as we have trained professionals in content areas that will provide the support needed. It is my expectation that teachers will be available daily before school, after school, and during the second half of each class period to help students succeed.

-I do encourage parents and guardians to help students with organization, being up and ready to learn by 8:00am, and checking on their progress. Please communicate early and often with their teachers as we are here to help and want to ensure that students and families have everything they need to be successful.

We also understand that this situation is not ideal and are looking into providing opportunities in the near future for small groups of students to be on campus for short periods of time. Precedence will go to students involved in hands on classes, and those that need additional help with the distance learning process. Thank you all for your support and cooperation as we work together to provide the best possible learning experiences for your students.
