

East Palestine City Schools has continued their partnership with PsyCare Inc., in order to provide mental health care for our students. PsyCare's School and Family Solutions Program offers school and home based case management and counseling services to both students and their family. During Covid 19, PsyCare can help with the challenges of online and in school learning, changes in routines, behavior issues, parent support, and provides the full range of mental health services to help cope with the stresses that we are all facing together.

The School and Family Solutions program works hand in hand with the school to help support your child's specific educational and emotional needs. We provide assistance with IEP's, 504's and other educational supports and direct help for parents to help their child succeed.

We at East Palestine City Schools care about our students, and are looking for meaningful ways to reduce behavioral issues and promote a positive educational experience. If you would like your child to receive counseling services please let us know so we can make a referral. We are looking forward to a positive school year with your child.
