

New Zoom Information

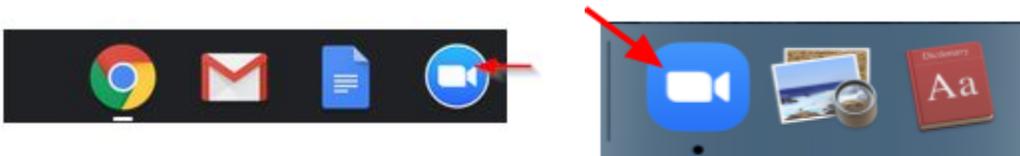

As a new security/safety measure, WSCUHSD will turn on the authentication for all ZOOM Meetings going forward. We have seen an increase in “ZOOM Bombers” into our classes, but the authentication system will require the use of a domain email in order to participate in each ZOOM, which should alleviate the issue.

Most can access the ZOOM meeting the same way they always have if their @wscuhsd.org email is linked to ZOOM. If that is not the email connected to their ZOOM account, an “internal meeting” message will pop up. This means you MUST reconnect (or connect for the first time) your ZOOM account to the WSCUHSD Domain (@wscuhsd.org email).

How do you fix this?

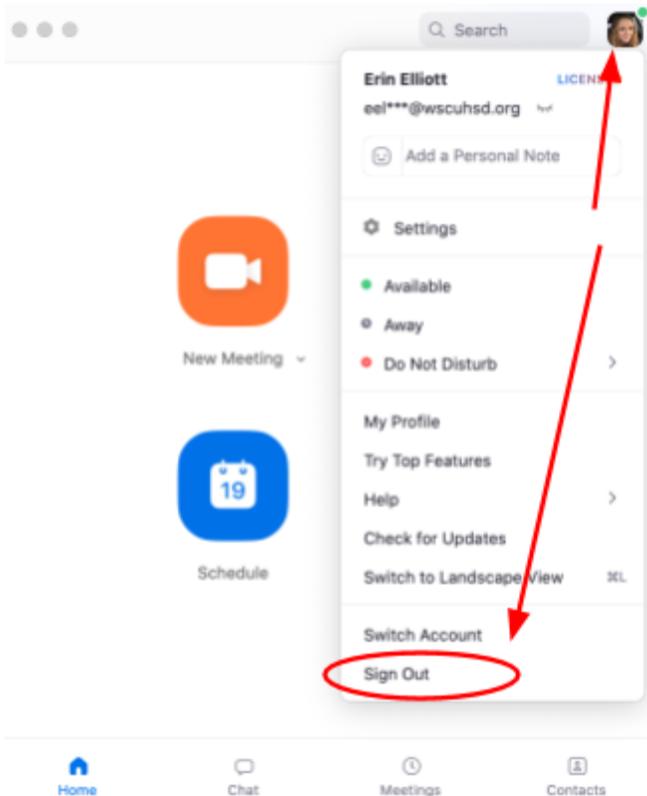

Step 1:

Login to your ZOOM App (should be located in the taskbar on your computer/chromebook).

Step 2:

Logout of your account. Click the top right icon (profile picture), then select “Sign Out” at the bottom of the menu.

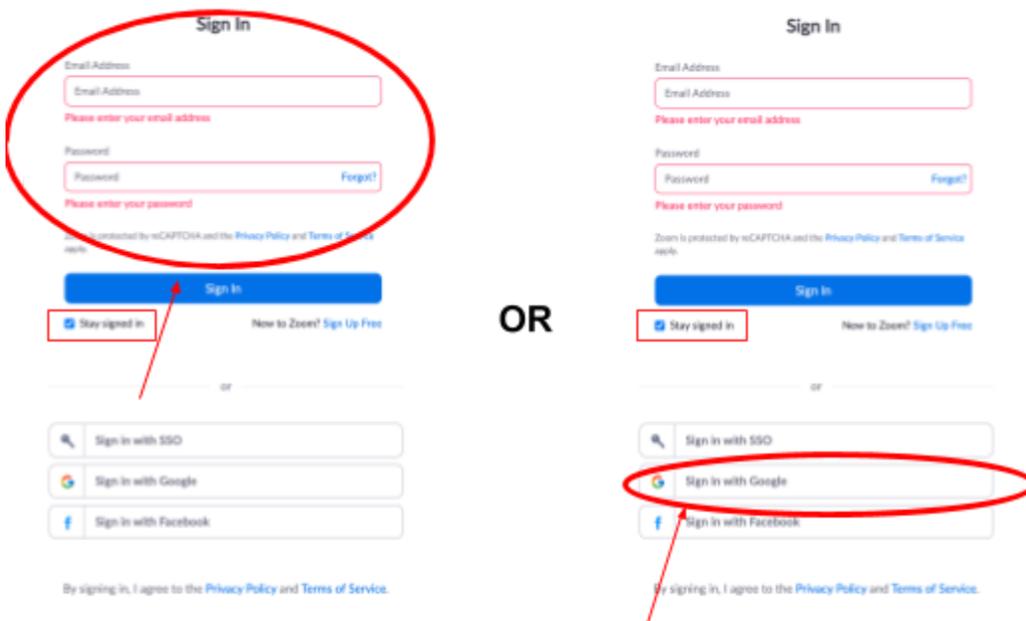

Step 3: First time logging into in via zoom.us

Open your chrome browser and go to zoom.us

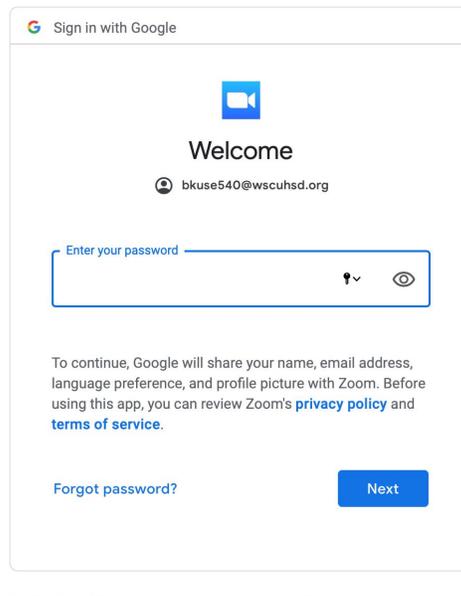

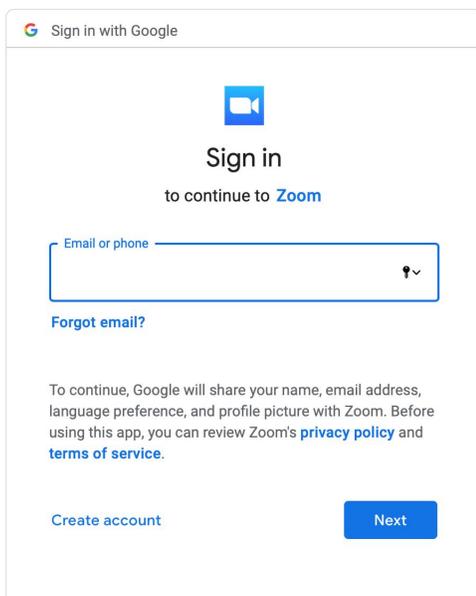

Select "Sign In"

You can sign in for the first time by using your school email and school email password. Select the box "Stay Signed In" to "Sign in with Google" next time. You can also scroll down and select "Sign in with Google" and login for the first time through your school email account. It will prompt you to sign in with your email and password. Use your school email address and password.

"Sign in the Google" - this is what this will look like.

Step 3: NOT the First time logging in via zoom.us

You will need to login to your zoom.us account and click on the icon in the top right corner.

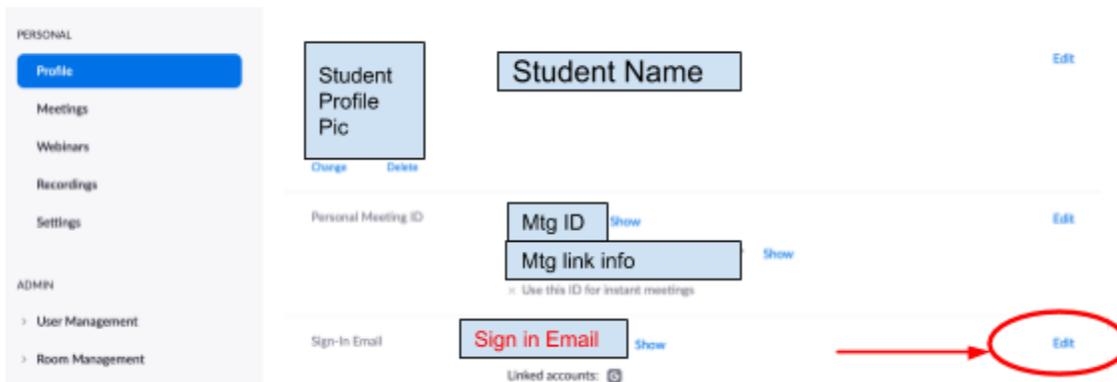

Then click on your email address in the little box that opens.

SIGN OUT

Find your "Sign in Email" and click edit on the right hand side

Edit your email address - change it to your @wscuhd.org email address

Once you change your email, you will receive an email notification to confirm the change.

Once you “Confirm and Continue”, ZOOM will confirm that the emails has been changed. Please check your new email for confirmation.

You have confirmed that you'd like to change your Zoom sign-in email address from to .
An email has been sent to to guide you through the process. Please check your email.

You may now login using your new email at zoom.us or in the application. You may use either the regular sign in or the “Sign in with Google”
