

Emergency Food Relief COVID-19

UAMS Northwest's Office of Community Health and Research, with funding from the Walmart Foundation, is partnering with the Arkansas Community Foundation to support coordinated **food insecurity response and relief** in Northwest Arkansas (Benton, Washington, Carroll, and Madison counties).

UAMS is working with local community partners to provide **no-contact delivery of food boxes to families that are quarantined due to COVID-19**. Consent for delivery will need to be given by families requesting food delivery.
