We know it's difficult to watch your child struggle, even if that struggle is productive. We're asking for your trust that the best ways to help us meet your child's unique needs this year are to help prepare them before the Diagnostic and to allow them the opportunity to demonstrate their learning independently during the Diagnostic. Thank you again for your cooperation as we work together to grow your child's learning in this unprecedented time. Please read, sign, and turn in a copy to your child's teacher by Sept. 15th. It can be submitted via email for virtual learners and in person for hybrid learners.
