Dear WMS Families,

Students will be taking the MAP Grow assessment while in the remote setting. Wheatridge students will take three adaptive assessments. These assessments will cover reading, math, and language skills. Wheatridge Middle School will administer these assessments September 21 through September 30. Students will test on days determined by their teachers. If you need additional information regarding testing times, please contact your child's homeroom, language arts teacher or math teacher regarding this matter.

Students that have been in USD 231 will most likely be familiar with MAP assessments. The assessments have always been done electronically so the biggest change will be students will be taking them in a remote setting. Wheatridge Middle School teachers will support students prior to taking the test by ensuring technology is ready for testing, going over expectations, and answering questions that students may have.

We have prepared a [Frequently Asked Questions](#) document to help families and students understand the MAP assessments and testing in the remote setting in greater detail. Please review this document and reach out to our staff with any questions or concerns.

Thank you for everything you do each day to help your child. Please contact your child's teacher or Wheatridge Middle School at 913.856.2900 with any questions you may have.

Together, we are MUSTANG STRONG.

Carl Garrett

Principal
