

How are GPA and final grades determined?

Your cumulative GPA is based upon final letter grades in your courses that count for high school credit. Each final letter grade is based upon your final percentage for the year. Your percentage for the year is determined using the formula below (estimate = grading period percentage):

1 st Estimate	21%
2 nd Estimate	21%
3 rd Estimate	21%
4 th Estimate	21%
Final Exam	16%

You can calculate your final grade by:

	Your pct.	Multiplied by:	Equals:
1 st Estimate		X .21	
2 nd Estimate		X .21	
3 rd Estimate		X .21	
4 th Estimate		X .21	
Final Exam		X .16	
Total			Total above for Final % grade in course

Examples

	Your pct.	Multiplied by:	
1 st Estimate	75 (C)	X .21	15.75
2 nd Estimate	80 (C+)	X .21	16.8
3 rd Estimate	70 (C-)	X .21	14.7
4 th Estimate	80 (C+)	X .21	16.8
Final Exam	65 (D)	X .16	10.4
Total			74.45 % (C)

	Your pct.	Multiplied by:	
1 st Estimate	40 (F)	X .21	8.4
2 nd Estimate	60 (D)	X .21	12.6
3 rd Estimate	65 (D)	X .21	13.65
4 th Estimate	65 (D)	X .21	13.65
Final Exam	65 (D)	X .16	10.4
Total			58.7 % (F)* *No credit for this course

	Your pct.	Multiplied by:	
1 st Estimate	60 (D-)	X .21	12.6
2 nd Estimate	62 (D)	X .21	13.02
3 rd Estimate	61 (D-)	X .21	12.81
4 th Estimate	65 (D)	X .21	13.65
Final Exam	45 (F)	X .16	7.2
Total			59.28 % (F)* *No credit for this course
