September 14th, 2020

Parents, students and community members,

Galatia School District has been in consultation with the Egyptian Health Department after we learned a staff member tested positive for COVID-19 on September 14th, 2020. In addition to the positive test, we have other staff members who will have to quarantine. Finally, the decision was made because of several positive cases in the Galatia community.

To protect the health and safety of our students and staff and allow appropriate time for contact tracing to take place, our district will shift from a hybrid learning model to a full remote learning model on September 15th, 2020 until September 28th, 2020. During this time, teachers will post work and videos online. If you do not have a device or access please contact the school to make arrangements to get work. We will send information on meals and other items this evening.

This decision was not made lightly as we recognize the inconvenience and challenges it will cause for families. However, we felt it was necessary until we can make sure our buildings are safe for students to return.

In the meantime, we promise to keep the lines of communication open with families and encourage everyone to practice handwashing, social distancing, and wearing a mask in public.

To close, we appreciate your willingness to put your trust in our school district to keep your son or daughter safe at school. This is a difficult time for everyone, but we are all doing our best to support our students.

Sincerely,

Shain Crank
