## Volleyball Games By Gracie Mabra

Yesterday (8-11-2020) at the Mutual gym, the jr high volleyball team played against Corn Bible and lost 15-4. They lost the first game, won the second with added confidence that they would win the third game, but that confidence was crushed. Both teams fought hard with very long volleys. The JV team played after the jr high. The first game was very close and exciting. They put up a good fight, but they lost 25-23. Then came the second game. They tried their best but they endured another fatal defeat. They lost by 25-12. Then the high school started their game. The high school game was very interesting. The game made everyone sit on the edge of their seat. It was a very

close game for a very long time because the volleys were really good. Then the visitors took the lead. They lost the first game 25-20. Then the team had to get ready for their second game. The second game was just as intense. Corn Bible was ahead at this point and no telling what would happen next. The rivals had won the game by 25-15. Then they started their third game. It started with the visitors in the lead ahead by 11. But they kept on fighting. Then Corn Bible needed 3 more points to win. The Lady Trojans had the game. Score 25-9.

### Teachers by Taylor Thompson

Teachers here at Sharon-Mutual are very intelligent and kind. I love all of these teachers. They discipline us and make us have lots of fun, they especially make us laugh a lot. I love seeing these teachers every day and to see their smiling faces. They are always making my day, so if you want

some nice charming teachers, come to Sharon-Mutual they are one of a kind.

When you get a chance to thank those teachers who have put up with our stuff way too long, remember that they deserve to be thanked. The reason I've decided to become a teacher is because I want to help students. I want to give them a desire to become productive in the future and to recognize that we have very loyal teachers.

Trapshooting is a sport that personally I love. Trapshooting is one of three clay pigeon shooting sports. Two others are skeet shooting and sporting Clays. People of all ages can trap shoot as long as you have a hunter safety card. Trapshooting is even an Olympic sport and you can also earn scholarships to colleges.

You can use almost any shotgun in trap shooting. Some of the most common ones are 12 gauge pump, over and under, semi-automatic, and single-shot shotguns. I have met many people while trap shooting and I have also gone to many places like *Dodge City, KS, and Kinsley, KS. I have also won plaques from trap shooting at competitions. Trapshooting is overall a great and fun sport.*

### **Moving from Clovis by Mario Jacquez**

In Clovis, I lived on the edge of the city and we could not have animals, I only had one dog, my school in Clovis was much bigger than the one here, there were like 1000 children in my school and the store was closer to the house in Clovis. Here in Sharon, I can have animals. I have 3 cows, 1 horse, a dog, and chickens. The school is smaller and we have to go to Woodward to the store. The school is further away. This is what I like about it here.

## **Baseball Season**

( by. Dakota Walker)

Baseball is a fun sport to play and a good way to also stay in shape. Personally, baseball is my favorite sport. It helps me stay in shape and have fun with my friends. The S-M baseball program is pretty good. I have played in it most of my baseball career. There were a few times we didn't have enough to have a baseball team. The high school baseball team has been pretty good in the past years. I'm pretty sure they have had a team every year.

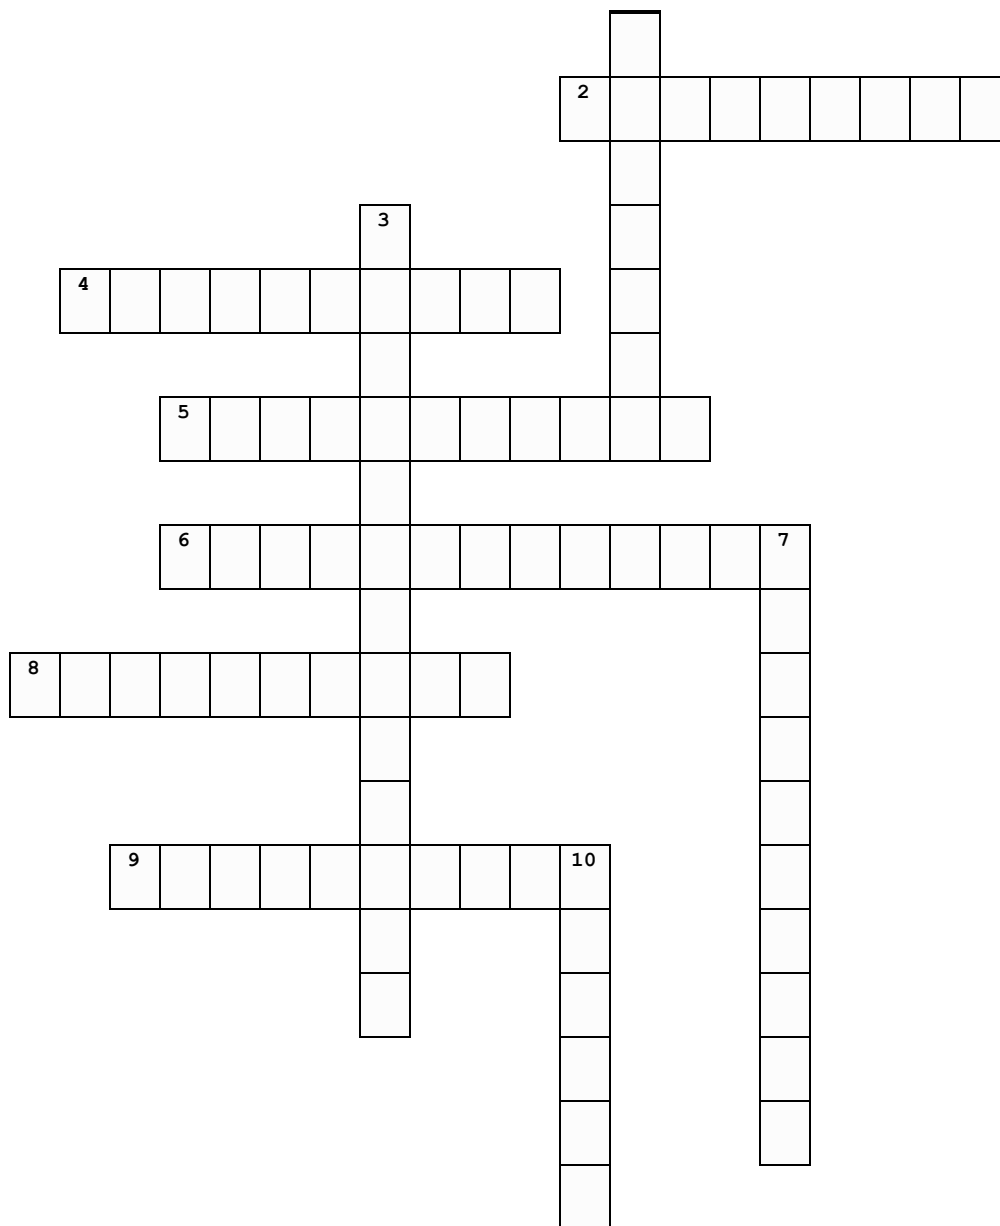

You don't have to play baseball to like it. Baseball is also a really fun sport to watch. It is very exciting and sometimes funny. We hope when baseball season comes around you'll play or come watch.

### **What Everyone Likes to Read Most By Zander Chester**

From 8th grade to the teachers, fiction is the most popular area that people like to read. The votes were realistic fiction had 7 votes and fiction had 9 votes. Most people voted for realistic fiction because they like war books and other people voted for fiction because they like to get lost in their own imaginary world. I prefer fiction because I like magic and imaginary creatures but I also like realistic fiction for detective books.

There will be sweets and donations so we can buy stuff for the school and music program. Music helps students listen better. The date for Sweets and a Show is tentatively set for October 6.
