INSTRUCTIONS/REQUIREMENTS: For School Districts/Joint Agreements

All School Districts/Joint Agreements must complete this form (Note: joint agreement supplementary/statistical schedules may not be applicable)

This form complies with Part 100 (Requirements for Accounting, Budgeting, Financial Reporting, and Auditing).

[23, Illinois Administrative Code 100, Subtitle A, Chapter I, Subchapter C \(Part 100\)](#)

- Round all amounts to the nearest dollar.** Do not enter cents. (Exception: 9 Month ADA on page 27, line 78)
- Any errors left unresolved by the Audit Checklist/Balancing Schedule must be explained in the itemization page.
- Before submitting AFR - **be sure to break all links in AFR** before submitting to ISBE. If links are not broken, amounts entered have changed when opening the AFR.
- Submit AFR Electronically**
 - The Annual Financial Reports (AFR) must be submitted directly through the Attachment Manager to the AFR Group by the Auditor (not from the school district) on before November 15 with the exception of Extension Approvals (Please see AFR Instructions for complete submission procedures). **Note: CD/Disk no longer accepted.**
[Attachment Manager Link](#)
 - AFR supporting documentation must be embedded as Microsoft Word (.doc), Word Perfect (*.wpd) or Adobe (*.pdf) and inserted within tab "Opinions & Notes". These documents include: The Audit, Management letter, Opinion letters, Compliance letters, Financial notes etc.... For embedding instructions see "Opinions & Notes" tab of this form.
Note: In Windows 7 and above, files can be saved in Adobe Acrobat (.pdf) and embedded even if you do not have the software. If you have problems embedding the files you may attach them as separate (.docx) in the Attachment Manager and ISBE will embedded them for you.*
- Submit Paper Copy of AFR with Signatures**
 - The auditor must send three paper copies of the AFR form (cover through page 8 at minimum) to the School District with the auditor signature.
Note: School Districts and Regional Superintendents may prefer a complete paper copy in lieu of an electronic file. Please comply with their requests as necessary.
 - Upon receipt, the School District retains one copy for their records, signs, and forwards the remaining two copies to the Regional Superintendent's office no later than October 15, annually.
 - Upon receipt, the Regional Superintendent's office retains one copy for their records, signs, and forwards the remaining paper copy to ISBE no later than November 15, annually.
 - If the 15th falls on a Saturday, the due date is the Friday before. If the 15th falls on a Sunday, the due date is the Monday after.
 - Yellow Book, CPE, and Peer Review requirements must be met if the Auditor issues an opinion stating "Governmental Auditing Standards" were utilized.
[Federal Single Audit 2 CFR 200.500](#)
- Requesting an Extension of Time** must be submitted in writing via email or letter to the Regional Office of Education (at the discretion of the ROE). Approval may be provided up to and no later than December 15 annually. After December 15, audits are considered late and out of compliance per Illinois School Code.
- Qualifications of Auditing Firm**
 - School District/Joint Agreement entities must verify the qualifications of the auditing firm by requesting the most current peer review report and the corresponding acceptance letter from the approved peer review program, for the current peer review period.
 - A school district/joint agreement who engages with an auditing firm who is not licensed and qualified will be required to complete a new audit by a qualified auditing firm at the school district's/joint agreement's expense.

Independent Auditor's Report

Board of Education
Dixon Public School District No. 170
Dixon, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Dixon Public School District No. 170, Illinois ("the District"), which comprise the Statement of Position as of June 30, 2018, and the related Statement of Revenues, Expenditures and Changes in Fund Balance, the Statement of Revenues, and the Statement of Expenditures - Budget to Actual for the year then ended, and the related notes to the financial statements.

Management Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Illinois State Board of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis financial position of Dixon Public School District No. 170, Illinois, as of June 30, 2018, and the respective changes in regulatory basis financial position, and budgetary results for the year then ended in accordance with the basis of accounting prescribed by the Illinois State Board of Education, as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements that describes the basis of accounting. As described in Note 1, the financial statements are presented by the District on the basis of the financial reporting provisions of the Illinois State Board of Education, which is a basis of accounting other than accounting principles generally accepted in the United States. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the District adopted new accounting guidance GASB Statement No 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during the year ended June 30, 2018. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Dixon Public School District No. 170, Illinois' financial statements. The introductory section and other information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

The 2017 comparative information in the schedule of expenditures of federal awards was subjected to the auditing procedures applied by us and our audit report dated October 3, 2018 expressed an unmodified opinion that such information was fairly stated in all material respects in relation to the 2017 financial statements taken as a whole.

The pages identified in the table of contents, pages 2 through 4, 23 through 34, page 35 (A-35 – A-42), and page 36 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 3, 2018 on our consideration of Dixon Public School District No. 170, Illinois' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dixon Public School District No. 170, Illinois' internal control over financial reporting and compliance.

Restriction on Use

Our report is intended solely for the information and use of the Illinois State Board of Education and is not intended to be and should not be used by anyone other than this specified party.

Note 1 Significant Accounting Policies

Financial Reporting Entity

The Board of Education (Board), a seven member group, is the level of government which has the governing responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. The District receives funding from local, state and federal sources and must comply with the requirements established by these funding source entities. However, the District is not included in any other governmental "reporting entity" as to result in the District being considered a component unit of the entity since Board members are elected by the public and have decision making authority, the power to designate management, and the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District, including joint agreements which serve pupils from numerous districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships.

Joint Venture

The District is a member of the Lee County Special Education Association (LCSEA) and Whiteside Regional Vocational System (WRVS). The LCSEA provides special education services to member districts and bills member districts for the costs of these services in proportion to the students served by the Association. WRVS provides vocational training to member districts and bills member districts for the costs of these services in proportion to the number of students served by WRVS. The member districts are jointly and severally liable as members of the LCSEA and WRVS. The LCSEA and WRVS are required by the Illinois Compiled Statutes to have an annual audit of their financial statements. These financial statements are available through the Lee County Special Education Association offices in Dixon, Illinois and Whiteside Regional Vocational System offices in Sterling, Illinois. The joint agreements have been determined not to be part of the reporting entity after applying the manifesting of oversight, scope of public service and special financing relationship criteria.

The District paid \$1,130,380 and \$161,948 to the LCSEA and WRVS, respectively, for the fiscal year ended June 30, 2018. The District is not aware of any entity which would exercise such oversight as to result in the District being considered a component unit of the entity.

The District is considered to be a primary government since it is legally separate and financially independent. This report includes all of the funds and account groups of the District. It includes all activities considered to be part (controlled by or dependent on) the District as set forth under the above criteria.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 Significant Accounting Policies (continued):

Basis of Presentation - Fund Accounting

These financial statements comply with the regulatory reporting basis prescribed by the Illinois State Board of Education as reported on ISBE form 50-35. The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its statement of position, fund balance, revenue and expenditures. The District maintains individual funds required by the State of Illinois. These funds are presented on the regulatory basis as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following funds and account groups are used by the District:

Educational Fund - This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Operations and Maintenance Fund - This fund is also a general operating fund used to account for costs of maintaining school buildings.

Debt Services Fund - This fund is a debt retirement fund. Resources of this fund are used to retire principal and interest maturities of outstanding bond obligations.

Transportation Fund - This fund is a special revenue fund used to account for the costs of transporting pupils to and from school and school activities.

Municipal/Retirement/Social Security Fund - This fund is a special revenue fund used to pay the District's share of municipal retirement benefits for covered employees. The District's share of social security and Medicare only is also paid from this fund if a separate tax is levied for that purpose.

Capital Projects Fund - Proceeds of construction bond issues and the capital improvement tax levy are accounted for in this capital projects fund.

Tort Fund - Proceeds of the Insurance tax levy are accounted for in this fund.

Fire Prevention and Safety Fund - Proceeds of fire prevention and safety bond issues and tax levy are accounted for in this capital projects fund.

Working Cash Fund - Resources of this fund are held by the District to be used for temporary interfund loans to any fund of the District for which taxes are levied.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 **Summary of Significant Accounting Policies (continued):**

Agency Funds - Agency funds (Activity Funds) include Student Activity Funds and Convenience Accounts. They account for assets held by the District as agent for the students, teachers and other organizations. These funds are custodial in nature and do not involve the measurement of the results of operations. The amounts due to the activity fund organizations are equal to the assets.

Account Groups:

General Fixed Asset Account Group - This group is used to account for general fixed assets acquired for general governmental purposes.

General Long-Term Debt Account Group - This group is used to account for the outstanding balances of general long-term obligations

Account groups are not "funds". They are concerned only with the measurement of financial position. They are not involved with the measurement of results of operations.

Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The District maintains its accounting records for all funds and account groups on the accrual basis of accounting as described in the "Illinois Program Accounting Manual for Local School Systems". Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues, except state categorical grant revenue to be available if they are collected, generally, within 60 days of the end of the current fiscal period. State categorical grant revenue is considered available when vouchered by the state comptroller. Expenditures generally are recorded when a liability is incurred, as under the accrual accounting. However, expenditures relating to compensated absences and early retirement are recorded only when payment is due.

Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with the modified accrual basis of accounting, which is the same basis used in financial reporting.

The budget for all Government Funds is prepared on the modified accrual basis of accounting which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. This is an acceptable method in accordance with Chapter 105, 15/17-1 of the Illinois Compiled Statutes. The budget was adopted on September 13, 2017 and was amended on June 20, 2018.

For each fund, total fund expenditures disbursed may not legally exceed the budgeted amounts. The budget lapses at the end of each fiscal year. All encumbrances lapse at the end of the fiscal year.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (continued):

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures disbursed and the means of financing them.
- Public hearings are conducted at a public meeting to obtain taxpayer comments.
- Prior to October 1, the budget is legally adopted through passage of a resolution.
- The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund; however, any revisions that alter the total expenditures disbursed of any fund must be approved by the Board of Education after a public hearing.
- Formal budgetary integration is employed as a management control device during the year.
- The Board of Education may amend the budget by the same procedures required of its original adoption.

New Accounting Pronouncement

Management adopted new accounting guidance GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. GASB Statement No. 75 replaces the requirements of GASB Statements No. 45 on Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions.

Cash and Investments

Cash and cash equivalents consist of demand deposits, money market accounts, certificates of deposit and savings accounts. Deposits and investments are stated at cost which approximates market. The District invests in accordance with Illinois Compiled Statutes 30 ILCS 235 under the Public Funds Investment Act.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated assets are recorded at their acquisition value at the date of acquisition.

As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (continued):

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Buildings	50 years
Improvements	20 years
Transportation equipment	5 years
Equipment	10 years

Purchases of fixed asset property and equipment are recorded as disbursements of the various funds when paid and as additions to the General Fixed Asset Account Group rather than in the individual fund itself. The assets are recorded in the General Fixed Asset Account Group at cost or estimated historical cost if purchased or constructed. The District has maintained detailed records reflecting its investment in general fixed assets at historical costs. Supplementary records have been maintained, however, based on the Guideline for Fixed Assets Accounting in Local School Systems, issued by the Illinois Office of Education, which reflect summary information and are presented in this report.

Long-term liabilities expected to be financed from any of the funds, except Working Cash and Student Activity Funds, are accounted for in the General Long-Term Debt Account Group, not in the funds themselves. Proceeds from sales of bonds are included as another financing source in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

The account groups are not “funds”. They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations. For purposes of the Illinois School District Annual Financial Report (AFR), the District is recognizing straight line depreciation on its’ fixed assets over 5-50 years for purposes of the per capita tuition calculation. The amount of depreciation reported on the AFR for the fiscal year ended June 30, 2018 was \$805,281.

Student Activity Funds

Student activity funds, also called extracurricular or co-curricular funds, are unique to school districts. The funds are formed for educational, recreational and cultural purposes and are usually intended to provide a learning experience for students. The funds are organized in the form of clubs and are used for activities such as athletic events, senior yearbooks, music clubs, and student government. These funds are owned, operated and managed generally by the student body under the guidance and direction of an adult or staff member and are financed partly or entirely by student fund-raising activities. although the Board of Education has the ultimate responsibility for the funds, they are not local education agency funds.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (continued):

Student Activity Funds (continued)

Fixed Assets

Purchases of fixed asset property and equipment are recorded as disbursements of the various funds when paid. There are no formal activity fund cumulative property and equipment records with which to maintain internal accounting control over the Activity Funds' fixed assets.

State Regulations

The Illinois State Board of Education (ISBE) has prescribed accounting guidelines for Activity Funds in a publication entitled Rules and Regulations and Fiscal Procedures for the Operations of Local Education Agencies' Student Activity Funds, Convenience Accounts, and Trust and Agency Funds.

Activity Fund Treasurer

Activity Fund accounting records are maintained in the respective building offices. The Treasurer and building principals have been appointed as Activity Fund Treasurer's and have been charged with depositing all Activity Fund monies into a designated depository and with maintaining accounts to show each funds' share of the total cash.

Property Taxes

It is the District's intention that property taxes generated from the 2016 property tax levy, be used to finance the operating budget of the fiscal year ending June 30, 2018. Therefore, in accordance with Governmental Accounting Standards Board principles, the District has not recognized as revenue any portion of the 2017 property tax levy in the current fiscal year. Property taxes receivable reflects the estimated amount receivable of the 2017 tax levy less any distributions. Property tax revenue represents the revenue generated by the 2016 property tax levy. Deferred property taxes represent the revenue to be generated from the 2017 property tax levy.

Tax levies become enforceable liens on January 1st. The tax levy must be certified by the president and secretary of the school board and returned to the County Clerk on or before the last Tuesday in December. The 2016 tax levy was passed by the Board on December 14, 2016. The 2017 tax levy was passed by the Board on December 13, 2017. The County Clerk delivers the tax books to the County Treasurer on or before December 31st. There is no specific date that tax bills are mailed to property owners, although they must be mailed at least 30 days prior to the date unpaid real estate taxes become delinquent. Property tax installments are generally due in June and September. The District receives significant distributions of tax receipts within one month of the due dates of the tax bills.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Dixon Public School District No. 170

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (continued):

Fund Balance

Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District first applies restricted resources.

Note 2 Stewardship, Compliance and Accountability

Excess of expenditures over appropriations

For the year ended June 30, 2018, the Education, Operations and Maintenance, Debt Service, Transportation, Capital Project, and Fire Prevention and Safety Funds had expenditures that exceeded appropriations.

Deficit Fund Equity

As of June 30, 2018, the Transportation Fund had a deficit fund balance of \$108,919.

Note 3 Cash Deposit with Financial Institutions

Custodial credit risk-deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2018, the District's bank balance was \$7,373,101 and the entire balance was insured and collateralized with securities in the District's name.

Note 4 Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain their uninvested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund.

The cash balances of most District funds are pooled and invested. Each fund's share of the investment pool is reflected on its respective balance sheet.

Note 5 Investments

As of June 30, 2018, the District's investments were as follows:

	Fair Value
Illinois School District Liquid Asset Fund Plus	\$20,727,622
Federal agency securities	5,879,598
Total investments	<u>\$26,607,220</u>

Dixon Public School District No. 170

Notes to Financial Statements

Note 5 Investments (continued)

Interest Rate Risk:

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District has no specific policy on the interest rate risk at year-end.

Information about the sensitivity of the fair values of the District investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

Investment Type	Remaining Maturity (in Months)			Total
	12 Months or Less	13-24 Months	25-60 Months	
External investment pool	\$20,727,622	\$0	\$0	\$20,727,622
Federal agency securities	2,204,921	3,674,677	0	5,879,598
Total investments	\$22,932,543	\$3,674,677	\$0	\$26,607,220

Credit Risk:

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment type:

Investment Type	Total As of June 30, 2018	AA	Unrated
External investment pool	\$20,727,622	\$0	\$20,727,622
Federal agency securities	5,879,598	5,879,598	0
Total investments	\$26,607,220	\$5,879,598	\$20,727,622

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy, as described under current accounting standards, are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities.

Dixon Public School District No. 170

Notes to Financial Statements

Note 5 Investments (continued)

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or inputs other than quoted prices that are observable for the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table presents the District's approximate fair value hierarchy for the assets measured at fair value on a recurring basis as of June 30, 2018:

	Total	Fair Value Measurements at Reporting Date Using		
		(Level 1)	(Level 2)	(Level 3)
Assets measured at fair value on a recurring basis:				
External investment pool	\$20,727,622	\$20,727,622	\$0	\$0
Federal agency securities	5,879,598	0	5,879,598	0
Total investments	\$26,607,220	\$20,727,622	\$5,879,598	\$0

Concentration of Credit Risk:

The District has no investments, other than mutual funds that are exempted from this requirement, in any one issuer that represent 5% or more of total District's investments.

Custodial Credit Risk:

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

As of June 30, 2018, there are no investments with custodial credit risk.

Foreign Currency Risk:

The District has no foreign currency risk for investments at year end.

Note 7 Pensions

The District participates in two retirement systems: The Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). In accordance with the regulatory reporting, amounts are reported in this note for disclosure purposes only.

The District's TRS pension plan is commingled with Lee County Special Education Association (LCSEA).

Teachers' Retirement System of the State of Illinois

Plan description - The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan with a special funding situation with the State of Illinois that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

Notes to Financial Statements

Note 7 Pensions (continued)

Teachers' Retirement System of the State of Illinois (continued)

TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/cafrs/fy2017>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888-678-3675, option 2.

Benefits provided - TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier 2 are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2019.

Contributions - The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2017, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On behalf contributions to TRS. The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2018, State of Illinois contributions recognized by the employer were based on the State's proportionate share of the collective NPL associated with the employer, and the employer recognized revenue and expenditures of \$9,118,204 in pension contributions from the State of Illinois.

2.2 formula contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2018, were \$73,425, and are deferred because they were paid after the June 30, 2017 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2018, the employer pension contribution was 10.10 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2018, salaries totaling \$273,166 were paid from federal and special trust funds that required employer contributions of \$27,590. These contributions are deferred because they were paid after the June 30, 2017 measurement date.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2018, the employer paid \$0 to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2018, the employer paid \$0 to TRS for employer contributions due on salary increases in excess of 6 percent and \$363 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2018, the employer had a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer were as follow:

Employer's proportionate share of the net pension liability	\$3,131,929
State's proportionate share of the net pension liability associated with the employer	92,650,356
Total	\$95,782,285

Net pension liability was allocated based on the percentage of current fiscal year member TRS contributions.

	District	LCSEA	Total
Balances as of June 30, 2017	\$2,859,333	\$272,596	\$3,131,929

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2017, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2017, the employer's proportion was 0.0040995 percent, which was a decrease of 0.0010490 percent from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the employer recognized pension expense of \$9,159,072 and revenue of \$9,118,204 for support provided by the state. At June 30, 2018, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$34,016	\$1,446
Net difference between projected and actual earnings on pension plan investments	2,149	0
Changes of assumptions	209,034	89,997
Changes in proportion and differences between employer contributions and proportionate share of contributions	9,634	750,527
Employer contributions subsequent to the measurement date	101,015	0
Total	\$355,848	\$841,970

Deferred outflows and inflows were allocated based on the percentage of current fiscal year member TRS contributions.

	District	LCSEA	Total
Deferred outflows	\$324,876	\$30,972	\$355,848
Deferred inflows	(768,687)	(73,283)	(841,970)
Net Deferred outflows/(inflows)	(\$443,811)	(\$42,311)	(\$486,122)

The District reported \$101,015 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2019. The employer contributions were allocated based on the percentage of current fiscal year member TRS contributions.

	District	LCSEA	Total
Employer contributions subsequent to the measurement date	\$92,223	\$8,792	\$101,015

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2019	(\$214,766)
2020	(84,796)
2021	(97,248)
2022	(167,995)
2023	(22,332)

Actuarial assumptions - The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	Varies by amount of service credit
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014. The same assumptions were used in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	14.4%	6.94%
U.S. equities small/mid cap	3.6	8.09
International equities developed	14.4	7.46
Emerging market equities	3.6	10.15
U.S. bonds core	10.7	2.44
International debt development	5.3	1.70
Real estate	15.0	5.44
Commodities (real return)	11.0	4.28
Hedge funds (absolute return)	8.0	4.16
Private equity	14.0	10.63
Total	100.0%	

Discount rate - At June 30, 2017, the discount rate used to measure the total pension liability was 7.0 percent, which was a change from the June 30, 2016 rate of 6.83 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2017 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2016, the discount rate used to measure the total pension liability was 6.83 percent. The discount rate was lower than the actuarially-assumed rate of return on investments that year as well because TRS's fiduciary net position and the subsidy provided by Tier 2 were not sufficient to cover all projected benefit payments.

Illinois Municipal Retirement Fund

Plan description – The employer's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multiple-employer public employee retirement system. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits provided - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Note 7 Pensions (continued)

Illinois Municipal Retirement Fund (continued)

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by the Benefit Terms – As of December 31, 2017, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	169
Inactive plan members entitled to but not yet receiving benefits	145
Active plan members	132
<hr/>	
Total	446

Contributions - As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2017 was 11.23%. For the fiscal year ended June 30, 2018, the employer contributed \$332,251 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability - The employer's Net Pension Liability was measured as of December 31, 2017. The total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

Actuarial assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2017:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.39% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.
- **Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from year 2014 to 2016.
- **Mortality** For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2017:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	38%	6.85%
International Equity	17%	6.75%
Fixed Income	27%	3.00%
Real Estate	8%	5.75%
Alternative Investments	9%	2.65-7.35%
Cash Equivalents	1%	2.25%
Total	100%

Single Discount rate - A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

Note 8 Other Post-Employment Benefits

The District participates in two other post-employment benefits: IMRF healthcare continuation coverage and Teacher's Health Insurance Security Fund ("THISF"). In accordance with the regulatory reporting, amounts are reported in this note for disclosure purposes only.

IMRF Healthcare Continuation Coverage

The District provides limited health care insurance coverage for its eligible retired employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree medical and prescription drug coverage.

Plan Description – In addition to providing the pension benefits described in Note 7, the District provides postemployment health benefits (OPEB) for retired employees through a single employer defined benefit plan. The benefits, benefit levels, employee contributions, and employer contributions are governed by the District and can be amended by the District through its personnel manual and employment contract. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

Benefits Provided – The District provides postemployment health care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under the District's IMRF retirement plan.

All health care benefits are provided through the District's self-insured health plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous and substance abuse care; vision care; dental care; and prescriptions.

Employees Covered by the Benefit Terms – As of June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees entitled to but not yet receiving benefits	0
Inactive employees currently receiving benefits	0
Active employees	131
<hr/>	
Total	131

Total OPEB Liability – At June 30, 2018, the District reported a net OPEB liability of \$215,444; the District's net OPEB liability was measured as of June 30, 2018 and was determined by an actuarial valuation as of that date.

Actuarial Methods and Assumptions – The net OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial cost method:	Entry age normal
Discount rate:	3.27%
Salary rate increase:	4.00%
Inflation rate:	3.00%
Initial health care cost trend rate:	7.00%
Ultimate health care cost trend rate:	4.50%
Fiscal year the ultimate rate is reached:	Fiscal year 2028
Mortality:	Rates from the December 31, 2017 IMRF actuarial valuation report.
Retirement rates:	Rates from the December 31, 2017 IMRF actuarial valuation report. No early retirement rates assumed.
Withdrawal rates:	Rates from the December 31, 2017 IMRF actuarial valuation report.
Disability rates:	Rates from the December 31, 2017 IMRF actuarial valuation report.
Starting per capita costs:	Starting per capita costs are based on premium rates. The same premiums are charged for actives and pre-Medicare retirees. When an employer provides benefits to both active employees and retirees through the same plan, the benefits to retirees should be segregated and measured independently for actuarial measurement purposes. The projection of future retiree benefits should be based on claim costs, or age-adjusted premiums approximately claims costs, for retirees, in accordance with actuarial standards issued by the Actuarial Standards Board. As such, premiums were estimated for retirees as if they were rated on a stand-alone basis. They were then disaggregated into age-specific starting costs based on average ages and assumptions on the relationship between costs and increasing age (i.e., morbidity).

IMRF Healthcare Continuation Coverage (continued)

Retiree contribution:	PPO Plan – Retiree \$9,184 and Spouse \$14,654
Morbidity:	Under Age 65: 4.50%
Election at retirement:	10% of employees are assumed to elect coverage continuation on the District plan at retirement.
Marital status:	50% of employees electing coverage continuation are assumed to be married and to elect spousal coverage with males three years older than females. Actual spouse data was used for current retirees.

Eligibility Provisions – Employees must meet the following Illinois Municipal Retirement Fund (“IMRF”) requirements for participation in the IMRF retirement program:

Regular Plan Tier I (enrolled in IMRF prior to January 1, 2011):

- At least 55 years old and at least 8 years of credited service (reduced pension)
- At least 60 years old and at least 8 years of credited service (full pension)

Regular Plan Tier 2 (enrolled in IMRF on or after January 1, 2011):

- At least 62 years old and at least 10 years of credited service (reduced pension)
- At least 67 years old and at least 10 years of credited service (full pension)

Medical Coverage – Retirees and their eligible dependents can remain as participants on District’s medical insurance plans provided they pay the entire premium. Retiree coverage ceases upon attainment of age 65 by the retiree. Dependent coverage ends upon attainment of age 65 by the dependent.

Discount Rate – The District does not have a dedicated Trust to pay retiree healthcare benefits. Per GASB 75, the discount rate should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale).

A rate of 3.27% is used, which is the S&P Municipal Bond 20-Year High-Grade Index as of May 31, 2018.

Teachers Health Insurance Security Fund ("THISF")

The District's THISF OPEB plan is commingled with Lee County Special Education Association (LCSEA).

Plan description –The Teacher Health Insurance Security Fund (THISF) (also known as The Teacher Retirement Insurance Program, "TRIP") is a non-appropriated trust fund held outside the State Treasury, with the State Treasurer as custodian. Additions deposited into the Trust are for the sole purpose of providing the health benefits to retirees, as established under the plan, and associated administrative costs. TRIP is a cost-sharing multiple-employer defined benefit post-employment healthcare plan with a special funding situation that covers retired employees of participating school districts throughout the State of Illinois, excluding the Chicago Public School System. TRIP health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. As a result of the Governor's Executive Order 12-01, the responsibilities in relation to TRIP were transferred to the Department of Central Management Services (Department) as of July 1, 2013. The Department administers the plan with the cooperation of the Teachers' Retirement System (TRS).

Based upon the required criteria, the THISF has no component units and is not a component unit of any other entity. However, because the THISF is not legally separate from the State of Illinois, the financial statements of the THISF are included in the financial statements of the State of Illinois as a pension (and other employee benefit) trust fund. The State of Illinois' Comprehensive Annual Financial Report may be obtained by writing to the State Comptroller's Office, Division of Financial Reporting, 325 West Adams Street, Springfield, Illinois, 62704-1871.

Benefits provided - The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

Contributions - The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.12% of salary and for every employer of a teacher to contribute an amount equal to .84% of each teacher's salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THISF, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

For the year ended June 30, 2017, member required contributions ranged from \$92.87 to \$220.21, per month per retiree, and from \$414.60 to \$660.63, per month per retiree and spouse (assuming Medicare eligibility). For non-Medicare eligible members, required contributions ranged from \$75.65 to \$833.43, per month per retiree, and from \$378.37 to \$2,500.29, per month per retiree plus dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires active teachers contribute 1.12% of salaries; they contributed \$111.734 million, or approximately 34.68% of total premiums. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) also requires participating school districts contribute 0.84% of salaries; they contributed \$100.763 million, or approximately 31.27% of total premiums. In addition, the State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires the State contribute 1.12% of salaries; they contributed \$109.7 million or approximately 34.05% of total premiums. The fund received \$2.053 million in Medicare Part D subsidy payments from the federal government. Retiree contributions are netted with the related liability.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2018, the employer reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state OPEB support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the employer were as follows:

District's proportionate share of the net OPEB liability	\$12,962,240
State's proportionate share of the net OPEB liability associated with the employer	14,115,627
<hr/>	
Total	\$27,077,867

Net pension liability was allocated based on the percentage of current fiscal year member TRS contributions.

	District	LCSEA	Total
Balances as of June 30, 2017	\$11,834,036	\$1,128,204	\$12,962,240

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The District's proportion of the net OPEB liability was based on the District's share of contributions to THISF for the measurement year ended June 30, 2017, relative to the contributions of all participating THISF employers and the state during that period. At June 30, 2017, the District's proportion was 0.0499520 percent, which was an increase of 0.0010460 percent from its proportion measured as of June 30, 2016.

Employer contributions subsequent to the measurement date	111,403	0
Total	\$359,086	\$1,550,811

Deferred outflows and inflows were allocated based on the percentage of current fiscal year member TRS contributions.

	District	LCSEA	Total
Deferred outflows	\$327,832	\$31,254	\$359,086
Deferred inflows	(1,415,832)	(134,979)	(1,550,811)
Net Deferred outflows/(inflows)	(\$1,088,000)	(\$103,725)	(\$1,191,725)

\$111,403 reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the reporting year ended June 30, 2019. The employer contributions were allocated based on the percentage of current fiscal year member TRS contributions.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OBEP expense as follows:

2019	(\$173,519)
2020	(173,519)
2021	(173,519)

2023	(173,519)
Thereafter	(435,533)

Total	(\$1,303,128)

Actuarial Assumptions - The total OPEB liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified:

Inflation	2.75%
Salary increases	Depends on service and ranges from 9.25% at less than 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.
Investment rate of return	0%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Actual trend used for fiscal year 2017. For fiscal years on and after 2018, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.5%. Additional trend rate of 0.59% is added to non-Medicare cost on and after 2020 to account for the Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 Whited Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2014.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014.

Teachers Health Insurance Security Fund ("THISF") (continued)

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since TRIP is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 2.85% as of June 30, 2016, and 3.56% as of June 30, 2017. The increase in the single discount rate from 2.85% to 3.56% caused the total OPEB liability to decrease by approximately \$3.564 billion from 2016 to 2017.

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

During the plan year ending June 30, 2017, the trust earned \$357,000 in interest and due to a significant benefit payable, the market value of assets at June 30, 2017, is a negative \$43 million. Given the significant benefit payable, negative asset value and pay-as-you-go funding policy, the long-term expected rate of return assumption was set to zero.

Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate - The following presents the plan's net OPEB liability, calculated using a Single Discount Rate of 3.56%, as well as what the plan's net OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (4.56%) or lower (2.56%) than the current rate:

Sensitivity of Net OPEB Liability as of June 30, 2017 to the Single Discount Rate Assumption			
	1% Decrease (2.56%)	Current Single Discount Rate Assumption (3.56%)	1% Increase (4.56%)
Net OPEB liability	\$31,139,345,900	\$25,949,568,385	\$21,796,923,765

The key trend rates are 8.00% in 2018 decreasing to an ultimate trend rate of 5.09% in 2025, for non-Medicare coverage, and 9.00% in 2018 decreasing to an ultimate trend rate of 4.50% in 2027 for Medicare coverage.

Note 10 Risk Management

The School District is exposed to various risks including, but not limited to, losses from worker's compensation, employee health insurance, general liability, property casualty and school board legal liability.

To limit exposure to the District's other risks, the District purchases insurance from commercial enterprises. The District is liable for \$100 to \$7,500 per occurrence loss deductible on these various policies. During the year ended June 30, 2018, there were no significant reductions in coverage. Also, there have been no settlement amounts which have exceeded insurance coverage in the past three years.

Dixon Public School District No. 170

Notes to Financial Statements

Note 10 Risk Management (continued)

The District is a co-participant in a self-insurance plan for employee medical coverage with Lee County Special Education Association (LCSEA). Insurance Programs Managers Group (IPMG), an administrative agent, handles claims for a minimum fee plus a fee determined by the number of annual claims. The District is self-insured for \$125,000 per individual per year with an unlimited maximum benefit per individual per life time, an individual stop loss at a minimum of \$125,000, an attachment point of \$125,000, and \$112,000 aggregating specific individual stop loss per year. The plan does not have an aggregate stop loss minimum per year. The District and LCSEA make monthly contributions into a checking account maintained in the District's Educational Fund. Claims and administrative fees are then paid directly out of this account when approved by IPMG and charged to appropriate expenditure line items. Monies set aside in the Educational Fund were less than claims paid, administrative costs, and estimated claims payable respectively, equaled \$6,790 as of June 30, 2018. In addition, LCSEA owes the Educational Fund \$239,585, which represents excess claims and administrative costs paid by the Educational Fund on behalf of LCSEA. This amount is included as an accounts receivable on the June 30, 2018 Educational Fund balance sheet. The June 30, 2018 fund balance of the Educational Fund is therefore unassigned in the amount of \$6,790 because the monies set aside were less than claims paid, administrative costs, and estimated claims payable.

A reconciliation of claims payable due for fiscal years ended June 30, is as follows:

	2017	2016	2015
Claims payable, beginning of year	\$445,000	\$339,000	\$430,000
Estimated claims incurred	3,989,741	3,197,867	2,893,216
Claim payments	(3,931,741)	(3,091,867)	(2,984,216)
Claims payable, end of year	<u>\$503,000</u>	<u>\$445,000</u>	<u>\$339,000</u>

Operating leases

The District leases several photocopiers, a postage machine, and buses under operating lease agreements which expire in various years through 2021. Total rental expense paid for June 30, 2018 was \$128,510. The bus operating leases were previously reported as capital leases in prior fiscal years. The following is a schedule of future minimum lease payments under operating leases at June 30, 2018:

Fiscal Year Ended June 30,	Operating Leases
2019	\$129,498
2020	127,608
2021	114,444
Total minimum lease payments	\$371,550

General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with original maturities that range from 5 to 20 years. General obligation bonds outstanding at June 30, 2018 are as follows:

General Obligation Bonds	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 6/30/18
Life Safety Series 2008	11/1/08	\$3,195,000	4.0 – 4.5	5/31/18	\$0

The original issue was \$2,245,000. The bond proceeds were used 100% for fire prevention, safety, environmental protection, energy conservation of school security purposes pursuant to applicable Illinois School Code.

The general obligation school bond, Series 2017, bear interest at 4.0-5.0 percent, which is due January 30 of each year, while principal amounts mature serially on January 30 of each year, with final maturity on January 30, 2037. The original issue was \$21,390,000. The bond proceeds were used 100% for fire prevention, safety, environmental protection, energy conservation of school security purposes pursuant to applicable Illinois School Code.

The general obligation school bonds (alternate revenue source), Series 2018A, bear interest at 2.625 – 4.0 percent, which is due January 30 and July 30 of each year, while principal amounts mature serially on January 30 of each year, with final maturity on January 30, 2038. The original issue was \$10,650,000. The bond proceeds were used to alter, repair, and equip school buildings and facilities, improve school sites, and pay any bond issuance costs. The bond will be paid with school facility occupation tax proceeds.

The general obligation refunding school bonds, Series 2018B, bear interest at 2.25 – 4.0 percent, which is due January 30 and July 30 of each year, while principal amounts mature serially on January 30 of each year, with final maturity on January 30, 2022. The original issue was \$1,195,000. The bond proceeds were used to pay the remaining balance on the general obligation life safety bond, Series 2008 as of May 31, 2018.

All bond payments are being made by the Debt Services Fund.

Debt service requirements to maturity are as follows:

Year ending June 30:	Bonds Payable

Note 11 Long-Term Debt (continued)

Current Year Debt Defeasance

In May 2018, the District defeased the general obligation life safety bond, Series 2008, by placing the proceeds of general obligation refunding school bonds, Series 2018B, issue in an irrevocable trust fund. The defeased portion of the Series 2008 bond was called on May 31, 2018. During the year ended June 30, 2018, the District refunded \$1,195,000 of the general obligation life safety bond, Series 2008 bond. The decrease in cash flow requirements as a result of the economic gain or loss is the difference between the present value of the old debt service requirements and the present value of the new debt service requirements, discounted at the effective interest rate and adjusted for additional cash paid. The District had an economic gain of \$31,524 which will be amortized through 2022.

Capital Lease

The District obtained a capital lease with Midwest Transit Equipment, Inc. on July 21, 2014 for a 14 passenger school bus. The value of the lease is \$45,350 with an interest rate of 2.3% payable in annual installments of \$5,893 to \$9,560 through July 21, 2019. During the current fiscal year the District decided not to purchase the bus. As a result, the capital lease's outstanding balance is considered paid during the fiscal year. See the Operating Lease section in Note 11 for future minimum payments related to this lease.

The District obtained a capital lease with Midwest Transit Equipment, Inc. on May 20, 2015 for a 14 passenger school bus. The value of the lease is \$46,930 with an interest rate of 2.6% payable in annual installments of \$6,389 to \$10,116 through July 13, 2020. During the current fiscal year the District decided not to purchase the bus. As a result, the capital lease's outstanding balance is considered paid during the fiscal year. See the Operating Lease section in Note 11 for future minimum payments related to this lease.

The District obtained a capital lease with Santander Leasing, LLC on May 10, 2017 for a 14 passenger school bus. The value of the lease is \$52,754 with an interest rate of 3.1% payable in annual installments of \$7,982 to \$11,175 through July 13, 2022. During the current fiscal year the District decided not to purchase the bus. As a result, the capital lease's outstanding balance is considered paid during the fiscal year. See the Operating Lease section in Note 11 for future minimum payments related to this lease.

There are no minimum future lease payments related to capital leases.

Long term liability activity for the year ended June 30, 2018 is as follows:

	Beginning Balance	Increase	Decrease	Ending Balance	Amounts Due Within One Year

Note 11 Long-Term Debt (continued)

The District is subject to a debt limitation of 13.8% of its assessed valuation of \$359,167,537. As of June 30, 2018, the District had \$22,220,167 of remaining legal debt margin.

Note 12 Fund Balance

According to Government Accounting Standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. The Regulatory Model, followed by the District, only reports Reserved and Unreserved Fund Balances. Below are definitions of the how these balances are reported.

Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts. The District has no nonspendable balances at year end.

Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories –

Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Fund. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

State Grants

Proceeds from state grants and the related expenditures have been included in the Educational and Transportation Funds. At June 30, 2018, expenditures exceeded revenue from state grants, resulting in no restricted balances.

Federal Grants

Proceeds from federal grants and the related expenditures have been included in the Educational, and Transportation Funds. At June 30, 2018, expenditures disbursed exceeded revenue received from federal grants, resulting in no restricted balances.

Leasing Levy

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Fund. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

Note 12 Fund Balance (continued)

Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

The School Board commits fund balance by making motions or passing resolutions to adopt policy or to approve contracts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District has no committed fund balances at year end.

Assigned Fund Balance

The assigned fund balance classification refers to amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by (a) the School Board itself or (b) the finance committee or by the Superintendent when the School Board has delegated the authority to assign amounts to be used for specific purposes.

The District has balances that are assigned at year end that are listed below.

Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds. Unassigned Fund Balance amounts are shown in the financial statements as Unreserved Fund Balances in the Educational Fund.

Regulatory – Fund Balance Definitions

Reserved Fund Balances are those balances that are reserved for a specified purpose, other than the regular purpose of any given fund. Unreserved Fund Balances are all balances that are not reserved for a specific purpose other than the specified purpose of a fund.

	\$0	\$22,787,924	\$3,442,679	\$609,655	\$21,518,967	\$5,321,291

Expenditures of Fund Balance

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

Note 13 Interfund Transfers

Below are the interfund transfers as of June 30, 2018:

Fund	Transfer In	Transfer Out
Education	\$16,309	\$0
Working Cash	0	1,066,309
O&M	1,050,000	0
Debt Service	401,135	0
Transportation	0	109,102
Capital Project	0	292,033
Total	\$1,467,444	\$1,467,444

The transfer between the Working Cash and Education Funds was to transfer the interest earned. The transfers between the Debt Service, Transportation, and Capital Project Funds were to transfer capital lease payments and new bond issuance costs. The transfer between the Working Cash and Operations and Maintenance Funds was to fund the land purchase.

Note 14 Interfund Receivable

Below are the advances to/from as of June 30, 2018:

	Receivable Fund	Payable Fund
Transportation	\$0	\$669,614
Working Cash	669,614	0
Total	\$669,614	\$669,614

The outstanding balances between funds result from cash shortfalls in the Transportation funds. The loan is to be repaid as soon as funding is available.

Note 15 Impact of Pending Accounting Principles

GASB Statement No. 83, *Certain Asset Retirement Obligations* establishes criteria for determining the timing and pattern recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations and requires the current value of a government's asset retirement obligations to be adjusted for the effects of general inflation or deflation at least annually. The requirements of this Statement are effective for reporting period in which the measurement date of the pension liability is after June 15, 2018. The District has not determined the effect of this Statement.

GASB Statement No. 84, *Fiduciary Activities* establishes criteria for identifying fiduciary activities of all state and local governments. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The District has not determined the effect of this Statement.

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The District has not determined the effect of this Statement.

GASB Statement No. 88, *Certain Disclosures Related to Debt*, including Direct Borrowings and Direct Placements, clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. The District has not determined the effect of this Statement.

Dixon Public School District No. 170

Notes to Financial Statements

Note 15 Impact of Pending Accounting Principles (continued)

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The District has not determined the effect of this Statement.

Note 17 Subsequent Events

The District approved various construction projects at Jefferson School for approximately \$5.5 million subsequent to year-end.

Note 3 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2017 Contribution Rate for IMRF *

Valuation date:

Notes	Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.
-------	---

Methods and Assumptions Used to Determine 2017 Contribution Rates:

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 26-year closed period. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 21 years for most employers (two employers were financed over 30 years).
Asset Valuation Method	5-Year smoothed market; 20% corridor
Wage growth	3.50%
Price Inflation	2.75% - approximate; No explicit price inflation assumption is used in this valuation.
Salary Increases	3.75% to 14.50% including inflation

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Education
Dixon Public School District No. 170
Dixon, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dixon Public School District No. 170, Illinois (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 3, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit the attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore material weaknesses or deficiencies may exist that were not identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control that we consider to be significant deficiencies, which are described in the accompanying schedule of findings and questioned costs as items 2018-001 and 2018-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2018-003 and 2018-004.

Responses to Findings

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Board of Education
Dixon Public School District No. 170
Dixon, Illinois

Report on Compliance for Each Major Federal Program

We have audited Dixon Public School District No. 170, Illinois' (the "District") compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2018. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility for Compliance

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

Basis for Qualified Opinion on Child Nutrition Cluster (CFDA 10.553 and 10.555)

As described in 2018-004 in the accompanying schedule of findings and questioned costs, the District did not comply with requirements regarding special tests and provisions that are applicable to the Child Nutrition Cluster (CFDA 10.553 and 10.555). Compliance with such requirements is necessary, in our opinion, for the District to comply with requirements applicable to that program.

Qualified Opinion on Compliance Child Nutrition Cluster (CFDA 10.553 and 10.555)

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraphs, Dixon Public School District No. 170, Illinois, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Child Nutrition Cluster (CFDA 10.553 and 10.555) for the year ended June 30, 2018.

Other Matters

The District's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2018-004 that we consider to be a significant deficiency.

The District's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

1	DEFICIT ANNUAL FINANCIAL REPORT (AFR) SUMMARY INFORMATION Provisions per Illinois School Code, Section 17-1 (105 ILCS 5/17-1)					
2	Instructions: If the Annual Financial Report (AFR) reflects that a "deficit reduction plan" is required as calculated below, then the school district is to complete the "deficit reduction plan" in the annual budget and submit the plan to Illinois State Board of Education (ISBE) within 30 days after accepting the audit report. This may require the FY2019 annual budget to be amended to include a "deficit reduction plan" and narrative.					
3	The "deficit reduction plan" is developed using ISBE guidelines and is included in the School District Budget Form 50-36, beginning with page 20. A plan is required when the operating funds listed below result in direct revenues (cell F6) being less than direct expenditures (cell f7) by an amount equal to or greater than one-third (1/3) of the ending fund balance (cell f9). That is, if the ending fund balance is less than three times the deficit spending, the district must adopt and submit an original budget/amended budget with ISBE that provides a "deficit reduction plan" to balance the shortfall within the next three years.					
4	<ul style="list-style-type: none"> If the FY2019 school district budget already requires a deficit reduction plan, and one was submitted, an updated (amended) budget is not required. 					
5	<ul style="list-style-type: none"> If the Annual Financial Report requires a deficit reduction plan even though the FY2019 budget does not, a completed deficit reduction plan is still required.

SINGLE AUDIT INFORMATION CHECKLIST

The following checklist is **OPTIONAL**; it is not a required form for completion of Single Audit information. The purpose of the checklist is to assist in determining if appropriate information has been correctly completed within the Annual Financial Report (AFR). This is not a complete listing of all Single Audit requirements, but highlights some of the more common errors found during ISBE reviews.

GENERAL INFORMATION

- ☒ 1. **Signed** and **dated** copies of audit opinion letters have been included with audit package submitted to ISBE.
- ☒ 2. All opinion letters use the **most current audit language and formatting** as mandated in SAS 115/SAS 117 and other pronouncements.
- ☒ 3. **ALL** Single Audit forms within the AFR Excel workbook have been completed, where appropriate.
 - For those forms that are not applicable, "N/A" or similar language has been indicated.
- ☒ 4. **ALL** Federal revenues reported in FRIS Report 0053 (Summary of Payments) are accounted for in the Schedule of Expenditures of Federal Awards (SEFA).
- ☒ 5. Federal revenues reported on the AFR reconcile to Federal revenues reported on the SEFA.
 - Verify or reconcile on reconciliation worksheet.
- ☒ 6. The total value of non-cash **COMMODITIES** has been included within the AFR on the **INDIRECT COSTS** page (ICR Computation 29) on Line 11.
 It **should not** be included in the Statement of Revenues Received (REVENUES 9-14) within the AFR Accounts 4210 - 4299.
 Those accounts are specific cash programs, not non-cash assistance such as **COMMODITIES**.
- ☒ 7. Complete audit package (Data Collection Form, audit reports, etc.) has been submitted electronically to the Federal Audit Clearinghouse
<https://harvester.census.gov/facweb/Default.aspx>

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

- ☒ 8. All prior year's projects are included and reconciled to final FRIS report amounts.
 - Including receipt/revenue and expenditure/disbursement amounts.
- ☒ 9. All current year's projects are included and reconciled to most recent FRIS report filed.
 - Including receipt/revenue and expenditure/disbursement amounts.
- ☒ 10. Differences in reported spending amounts on the SEFA and the final FRIS reports should be detailed and/or documented in a finding,
 - discrepancies should be reported as Questioned Costs.
- ☒ 11. The total amount provided to subrecipients from each Federal program is included.
- ☒ 12. Prior-year and Current-year Child Nutrition Programs (CNP) are included on the SEFA (with prior-year program showing total cash received):
 Project year runs from October 1 to September 30, so projects will cross fiscal year;
 This means that audited year revenues will include funds from both the prior year and current year projects.
- ☒ 13. Each CNP project should be reported on a separate line (one line per project year per program).
- ☒ 14. Total CNP Revenue amounts are consistent with grant amounts awarded by ISBE for each program by project year.
- ☒ 15. Total CNP Expenditure amounts are consistent with grant amounts awarded by ISBE for each program by project year.
- ☒ 16. Exceptions should result in a finding with Questioned Costs.
- ☒ 17. The total value of non-cash **COMMODITIES** has been reported on the SEFA (CFDA 10.555).
 - The value is determined from the following, **with each item on a separate line**:
 - ☒ * **Non-Cash Commodities**: Monthly Commodities Bulletin for April (From the Illinois Commodities System accessed through ISBE web site)
 Total commodities = A PAL Allocated + B PAL Allocated + Processing Deductions + Total Bonus Allocated
[Verify Non-Cash Commodities amount on ISBE web site: https://www.isbe.net/Pages/School-Nutrition-Programs-Food-Distribution.aspx](https://www.isbe.net/Pages/School-Nutrition-Programs-Food-Distribution.aspx)
 - ☒ * **Non-Cash Commodities**: Commodities information for non-cash items received through **Other Food Services**
 Districts should track separately through year; no specific report available from ISBE
 Verify Non-Cash Commodities amount through Other Food Services on ISBE web site:
<https://www.isbe.net/Pages/School-Nutrition-Programs-Food-Distribution.aspx>
 - ☒ * **Department of Defense Fresh Fruits and Vegetables** (District should track through year)
 - **The two commodity programs should be reported on separate lines on the SEFA.**
 Verify Non-Cash Commodities amount through DoD Fresh Fruits and Vegetables on ISBE web site:
<https://www.isbe.net/Pages/School-Nutrition-Programs-Food-Distribution.aspx>
 - ☒ * Amounts verified for **Fresh Fruits and Vegetables** cash grant program (ISBE code 4240)
 CFDA number: 10.582
- ☒ 18. **TOTALS** have been calculated for Federal revenue and expenditure amounts (Column totals).
- ☒ 19. Obligations and Encumbrances are included where appropriate.
- ☒ 20. **FINAL STATUS** amounts are calculated, where appropriate.
- ☒ 21. Medicaid Fee-for-Service funds, E-Rate reimbursements and Build America Bond interest subsidies have **not** been included on the SEFA.
- ☒ 22. **All** programs tested (not just Type A programs) are indicated by either an * or (M) on the SEFA.
- ☒ 23. **NOTES TO THE SEFA** within the AFR Excel workbook (SEFA NOTES) have been completed.

- ☒ 35. Separate finding sheet for each finding on programs (e.g., excess interest earned and unallowable expenditures are two findings and should be reported separately, even if both are on same program).
- ☐ 36. Questioned Costs have been calculated where there are questioned costs.
- ☐ 37. Questioned Costs are separated by project year **and** by program (and sub-project, if necessary).
- ☐ 38. Questioned Costs have been calculated for Interest Earned on **Excess Cash on Hand**.
 - Should be based on actual amount of interest earned
 - Questioned Cost amounts are broken out between programs if multiple programs are listed on the finding
- ☒ 39. **A CORRECTIVE ACTION PLAN, on the LEA's letterhead** has been completed for each finding.
 - Including Finding number, action plan details, projected date of completion, name and title of contact person

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ending June 30, 2018

[illegible]

- **(M)** Program was audited as a major program as defined by §200.518.

***Include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).**

The accompanying notes are an integral part of this schedule.

To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.

When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number.

When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2)

The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

SECTION II - FINANCIAL STATEMENT FINDINGS

1. FINDING NUMBER:¹¹ 2018- 001 2. THIS FINDING IS: ☐ New ☒ Repeat from Prior Year?
Year originally reported? 2007

3. Criteria or specific requirement

Management is responsible for establishing and maintaining internal controls and for the fair presentation of the financial statements including the related disclosures, in conformity with U.S. generally accepted accounting principles (GAAP).

4. Condition

The District does not have an internal control policy in place over annual financial reporting that would enable management to prepare its annual financial statements and ensure related footnote disclosures are complete and presented in accordance with GAAP.

5. Context¹²

Management has informed us that they do not have an internal control policy in place over the annual financial including footnote disclosures.

6. Effect

The completeness of the financial statement disclosures and the accuracy of the overall financial presentation is negatively impacted as external auditors do not have the same comprehensive understanding of the District as its internal staff.

7. Cause

The District relies on the audit firm to prepare the annual financial statements and related footnote disclosures. However, they have reviewed and approved the annual financial statements and the related footnote disclosures.

8. Recommendation

Management should continue to review and approve the annual financial statements and the related footnote disclosures.

9. Management's response¹³

The District will continue to review the financial statements and required footnotes prepared by the external auditors. The District believes this process to be the most economical and appropriate to help ensure complete and proper financial reporting.

¹¹ A suggested format for assigning reference numbers is to use the digits of the fiscal year being audited followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 2018 would be assigned a reference number of 2018-001, 2018-002, etc. The sheet is formatted so that only the number need be entered (1, 2, etc.).

¹² Provide sufficient information for judging the prevalence and consequences of the finding, such as relation to universe of costs and/or number of items examined and quantification of audit findings in dollars.

¹³ See §200.521 *Management decision* for additional guidance on reporting management's response.

1. FINDING NUMBER:¹¹ 2018- 002 2. THIS FINDING IS: ☐ New ☒ Repeat from Prior Year?
Year originally reported? 2008

3. Criteria or specific requirement
Segregation of duties

4. Condition

There is inadequate control over the functions of processing and recording of financial transactions of the District due to the inadequate segregation of duties stemming from limited personnel. Internal controls should be in place that provide reasonable assurance that not one individual handles a transaction from its inception to its completion.

5. Context¹²

There is inadequate control over the functions of processing and recording of financial transactions of the District due to the inadequate segregation of duties stemming from limited personnel. Internal controls should be in place that provide reasonable assurance that not one individual handles a transaction from its inception to its completion.

6. Effect

Without adequate segregation of duties, the likelihood that unauthorized or false transactions will be prevented or detected in a timely fashion is significantly diminished which may result in misstated financial statements.

7. Cause

The District has a limited number of staff to allow for adequate segregation of duties.

8. Recommendation

The District's management and Board of Education's close supervision and review of accounting information is the most economical and appropriate manner to help prevent and detect errors and irregularities in the District's accounting and financial reporting.

9. Management's response¹³

The District's management and Board of Education's close supervision and review of accounting information is the most economical and appropriate manner to help prevent and detect errors and irregularities in the District's accounting and financial reporting.

¹¹ A suggested format for assigning reference numbers is to use the digits of the fiscal year being audited followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 2018 would be assigned a reference number of 2018-001, 2018-002, etc. The sheet is formatted so that only the number need be entered (1, 2, etc.).

¹² Provide sufficient information for judging the prevalence and consequences of the finding, such as relation to universe of costs and/or number of items examined and quantification of audit findings in dollars.

3. Criteria or specific requirement

District had excess of expenses over budget in the Fire Prevention and Safety and Capital Project Funds.

4. Condition

The Fire Prevention and Safety and Capital Project Funds overspent the District's legally adopted budget.

5. Context¹²

The Fire Prevention and Safety and Capital Project Funds overspent the District's legally adopted budget.

6. Effect

District is not in compliance with 105 ILCS 5 School Code.

7. Cause

District had excess of expenses over budget.

8. Recommendation

None.

9. Management's response¹³

District will consider amending its budget in the future.

¹¹ A suggested format for assigning reference numbers is to use the digits of the fiscal year being audited followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 2018 would be assigned a reference number of 2018-001, 2018-002, etc. The sheet is formatted so that only the number need be entered (1, 2, etc.).

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

1. FINDING NUMBER:¹⁴ **2018- 004** 2. THIS FINDING IS: ☐ New ☒ Repeat from Prior year?
Year originally reported? **2014**

3. Federal Program Name and Year: **Child Nutrition Cluster**
4. Project No.: **3-4210-00, 17-4220-00, 18-4220-00, 47** 5. CFDA No.: **10.553, 10.555**
6. Passed Through: **Illinois State Board of Education**
7. Federal Agency: **U.S. Department of Agriculture**

8. Criteria or specific requirement (including statutory, regulatory, or other citation)

The school food authority (SFA) must operate its food services on a non-profit basis; all revenues generated by the school food service must be used to operate and improve its food services (7 CFR sections 210.14(a), 210.14(c), 210.19(a)(2), 215.7(d)(1), 220.2, and 220.7(e)(1)(i)). The ISBE School-Based Child Nutrition Programs Administration Handbook School Year 2018-2019 states that the SFA must limit its net cash resources to an amount that does not exceed three months average expenditures for its nonprofit school food service.

9. Condition¹⁵

The District's net cash resources exceeded three months average expenditures for its school food service.

10. Questioned Costs¹⁶

N/A

11. Context¹⁷

The District's net cash resources exceeded three months average expenditures for its school food service.

12. Effect

The District's had too much net cash resources for the food service program.

13. Cause

The District did not incur enough expenses in the operation of the school food service for school year 2017-2018.

14. Recommendation

We recommend the District use extra funds to improve the quality of meals or upgrade cafeteria equipment. We also recommend the District consider filing for a PLE requirement exemption with ISBE. A PLE requirement exemption is granted if the District has been certified as meeting the meal pattern requirements and can demonstrate that the required increase to paid lunch prices or revenue contributions would cause the District to exceed the 3-month operating balance limit.

15. Management's response¹⁸

Management and the board are looking to replace school food service equipment in upcoming years and will consider filing for a PLE requirement exemption with ISBE for the 2018-2019 school year.
