

September 18, 2020

Dear Butteville Families and Staff,

Yesterday afternoon our administrative staff was informed that a driver who delivers commodities to our school tested positive for COVID-19. The potential exposure event occurred on September 9, 2020. After consultation with the Siskiyou Public Health Department, two of our employees have been placed in quarantine. At this time, we do not believe that any other staff or students were exposed to the virus. We are currently working on getting all staff members tested for COVID-19 and will comply with any other Public Health Department recommendations. Updates will be made available as we learn more.

Kindly,

Eric Bragg, Principal

Len Foreman, Superintendent
