

GOAL #3 – COMMUNITY RELATIONS

CURRENT SITUATION

This year the board of education has heard from students, teachers and sponsors at the monthly board meetings on the great things going on in the district. During those meetings, many of the student's parents have attended the board meetings with their children. The admin team continues to use social media to get out news to the members of the community. The High School once again did SWAP day in the fall and had a great turnout of parents. The Grade School had their annual Meet the Stars Night that was well attended. The Junior High had an open house and a chili dinner to bring people into their building. Athletics and concerts always bring community members into the buildings and that continues this year.

MOVING FORWARD

The continued use of social media is a powerful tool for the district to get the message out of all the great things going on in the district. The Unit Office has been used for community meetings in the past and it will continue to be a place that can be used for those types of meetings.
