

Instruction

Program for the Gifted

The Superintendent or designee shall implement an education program for gifted and talented learners that will challenge and motivate academically advanced learners and engage them in appropriately differentiated learning experiences to develop their unique abilities. If the State Superintendent of Education issues a Request for Proposals because sufficient State funding is available to support local programs of gifted education, the Superintendent or designee shall inform the Board concerning the feasibility and advisability of developing a “plan for gifted education” that would qualify for State funding.

Eligibility to participate in the gifted program shall not be conditioned upon race, religion, sex, disability, or any factor other than the student’s identification as gifted or talented learner.

The Board authorizes the Superintendent to provide a gifted program which includes:

1. An identification system which identifies gifted and talented students early in their schooling experience;
2. An identification system based upon multiple techniques which ensure all students equal access to gifted and talented programs, regardless of social, economic, linguistic and ethnic background;
3. Educational programs which include access at all grade levels and which encompass all of the fundamental areas of learning;
4. Educational programs which provide for continuity among grade levels with programs consistent with the District’s long-range goals;
5. Qualified instructional and administrative personnel with appropriate knowledge, training and experience to implement the program;
6. Staff development programs being made available which address the need for all teachers to be knowledgeable about the characteristics and learning needs of gifted and talented students;
7. Procedures to foster cooperative relationships among classroom teachers, parents, and the teachers assigned to the gifted program;
8. Procedures to foster parental involvement in all aspects of the program; and
9. Procedures to continually evaluate the placement and progress of students in the gifted program with periodic progress reports issued to parents.

The Board of Education will monitor this program’s performance by meeting periodically with the Superintendent or designee to determine and/or review the indicators and data that evidence whether the educational program for gifted and talented learners is accomplishing its goals and objectives and is otherwise in compliance with this policy.
