September 22, 2020

Dear Parents,

The State Nutrition Service has informed us that the USDA has issued a nationwide waiver to allow us to provide FREE meals to K-12 students currently enrolled in school for Breakfast and Lunch! Students will pay for any extra or a la carte items as normal. We were informed that this will cover from the beginning of school on August 12th through December 31st or when the money for the program runs out, whichever comes first. All student's accounts will be credited for their main breakfast and lunch meals only during that time, keeping accounts with a positive balance to be used when the waiver ends. Any extra or a la carte items purchased during that time still need to be paid for.

Any non-breakfast or lunch item will still need to be paid for such as extra milk or a la carte items. We will update food service account balances as soon as possible and inform everyone of any changes in the program as we receive them.

If you have any questions please call or email Nancy Sydow at nancy.sydow@wynotpublicschools.org

Thank,

Jeff Messersmith
