

ABOUT AskRose

Started in 1991, AskRose is a **FREE** math and science tutoring service for students in grades 6–12 offered by Rose-Hulman Institute of Technology.

OUR PHILOSOPHY

Rather than give students the answers, our trained AskRose tutors guide students through homework problems to help them better understand math and science concepts, the way they are taught in schools today.

OUR TUTORS

All AskRose tutors are Rose-Hulman Institute of Technology students who are recommended by Rose-Hulman faculty for their technical knowledge and ability to communicate with students of all skill and comprehension levels.

All AskRose tutors have access to textbooks and many other resources.

CONTACTING OUR OFFICE
