

SEMINOLE HIGH SCHOOL

In a partnership with parents and community, Seminole Public Schools will nurture and guide students to achieve their full potential academically, socially, and emotionally.

The attainment of these purposes necessitates full cooperation of the schools with all agencies in community life, particularly the home, which share responsibility for the welfare and development of children and youth. We encourage all of our parents/guardians to become an interactive entity in the development of their student.

I. INFORMATION

PRINCIPAL'S OFFICE

The Principal is the director of each school. The policies and philosophy under which the school operates are interpreted through his office. Students and parents are welcome to visit administrators at any time.

AUTHORITY OF TEACHERS

The teacher of a child attending a public school has the same right as a parent or guardian to control and discipline a child during the time the child is in attendance or in transit to or from the school or any other school function authorized by the school district.

GUIDANCE AND COUNSELING

The guidance program in Seminole strives to assist the students with educational, vocational and personal problems. The counselors will administer various tests from time to time. The results of these tests will give indications as to the abilities, interests, and personality of each student. The counselor will also help the students to plot their high school courses in such a way as to better fulfill their needs upon graduation. The counselor confers with the students concerning scholarship possibilities, college choices, as well as any other problem that may indicate a need for guidance and direction.

COUNSELOR CONFIDENTIALITY STATEMENT

As professional school guidance counselors, we will respect the rights of confidentiality of personal information disclosed during the course of conversation between ourselves and students except in the following cases: If the student presents danger to himself or herself, if the student presents danger to others, if the student has been abused by others, if the student needs hospitalization or if required to do so by court order. We are bound by Federal and State law to break confidentiality in the above so mentioned situations and will do so to protect our students and to remain legally and ethically true to our profession.

ENTRANCE REQUIREMENTS

To gain admission to Seminole High School, a student must be a legal resident of this district or a legal transfer. The student must be residing with the student's parent(s) or follow 8.29 of the Seminole B.O.E. policy handbook.

9TH - 12TH GRADE SCHEDULE POLICIES

CLOSED CAMPUS

The campus will be closed for all grades during the lunch hours. All students will be required to eat in the high school cafeteria. Students may bring either a sack lunch, purchase a cafeteria tray, or have fast food brought to them. Fast foods (pizza, hamburgers, etc.) MAY NOT be brought into classrooms without prior approval. Students may be picked up for lunch by a household member. People listed on the non-household contact list may pick up a student for lunch with prior parental contact from the student's parent/guardian on the day of check out. **Both breakfast and lunch meals are at no cost to our students.**

REPORT TO PARENTS

Student progress can be monitored by parents using the parent portal. **Parents/guardians should contact the administrative office** for the necessary requirements. Parents are urged to confer with the principal and teachers when there is a question concerning grades of the student. Academic Progress Reports will be mailed to parents when necessary.

TEXTBOOK AND FEES

Textbooks are furnished by the State and are issued at the beginning of the year. Students who lose or damage a book while it is checked out to them will be expected to pay for it. Additional textbooks will not be checked out until the amount of the lost textbook(s) is paid. Students who owe money for textbooks, library books, lunches, activity fees or any other school-related items will have a hold placed on their grade cards and transcript until the amount is paid.

It is the goal of the Seminole Board of Education to provide a free, appropriate, public education to all the children of this district. However, there are certain areas in which the payment of fees, fines, or charges may be required. The superintendent is directed to establish a regulation designating such areas and setting forth methods of payment.

Class of 2024

Seminole High School goes above and beyond the expectations of the Oklahoma State Department of Education requirements. In order to participate in the graduation ceremonies, a student must complete **24** units of credit and have passed all required courses in the school year that the ceremonies occur. Electives can be chosen in areas of student interest.

Parents/guardians of 9th grade students will choose either the College Preparatory/Work Ready Curriculum or the Core Curriculum. A signed document must be on file with the student’s permanent records.

GRADUATION EXERCISES

Students who are enrolled in enough credits to complete the graduation requirements will be privileged to participate in commencement exercises. However, it is a removable privilege. Students must attend graduation practice in order to participate in commencement exercises. Participants will wear caps / gowns administered by the school administered by the school – No other adornments will be permitted **EXCEPT:** Scholar stoles and honor cords worn by the top 10% of the graduating class, various honor cords from organizations of Seminole High School and a ceremonial eagle feather on the graduation cap. The consequences for refusing to abide by the foregoing rules shall be automatic revocation of the privilege to participate in commencement exercises and the offending student(s) shall be required to leave the premises upon which commencement takes place, his/her name shall be stricken from the class roll and not read aloud at commencement exercises. If an offending student refuses to cooperate and leave the premises, law enforcement may be contacted for trespass. This shall in no way permit the school to withhold a diploma from an offending student if he/she has completed the graduation requirements set forth herein. It is the responsibility of the High School Principal to ensure that this policy is enforced; however, other personnel may assist in the enforcement of this policy and are encouraged to do so.

GRADING

In accordance with the policy of the board of education, the following grading system will be used for all subjects including special education.

90-100	=	A
80-89	=	B
70-79	=	C
60-69	=	D
59 –Below	=	F

A grade mark of “I” is an incomplete and will be changed when the course is completed within the time limit set by the teacher.

WEIGHTED GRADES

A grading scheme is offered to enhance class ranking for those students who elect the most challenging courses in each core curriculum area and to encourage continued pursuit of the most challenging courses to the exit of the high school program. Certain courses have been deemed to be of an academically challenging nature. Accordingly, the following classes will receive an additional point of credit, resulting in those grades being calculated on a 5.0 scale:

- All AP Courses**
- All OSSM Courses**

HONOR HALL

Honor Hall consists of students ranking in the top 10% of their class. Honor Hall is figured each semester, using weighted grade point average.

SCHOLARS PROGRAM

The scholars program will be an added dimension to the present high school program. It will give strong direction for the academically capable student and will offer recognition of the students' efforts in that program. The end result will be students with a sound high school background in the basic education and evidence of pursuit of academic excellence in more advanced courses than requirements now yield. In addition, it is believed that the program will broaden the scope of the high school education while assuring the students will have experienced an education that will best prepare them for post-secondary education options.

RECOGNITION

The designation "Scholar Graduate" will be placed on the diploma and the final transcript. The Valedictorian(s) and Salutatorian(s) will be selected from the Scholars Program at the end of the eighth semester by weighted G.P.A. and will address the graduating class. Students will be recognized as Scholar Graduates on the graduation program and during the graduation ceremony.

REVIEW COMMITTEE

A standing review committee will be formed from staff who will continually evaluate the program and make suggestions for needed changes. The committee will also be available to hear any student problem that requires a deviation from the prescribed program and will make a recommendation to the principal for its disposition. The review committee will be composed of:

1. Counselor
2. Media Specialist
3. G/T Coordinator
4. Department Heads (Language Arts / Mathematics / Science / Social Studies)
5. Faculty representative selected by the student.

For each review committee meeting a chairperson and a recorder will be selected. A written response will be provided to any request considered within three school days.

GRADES AND CREDITS (SCHOLARS PROGRAM)

1. No grade lower than a "C". (Beg. with 9th grade 2010-2011)
2. Maintenance of a weighted 3.0 G.P.A.
3. All work must be completed in regular or honors classes, concurrent classes or by Proficiency-based testing for regular or honors classes.
4. Must earn at least the following:

Language Arts	4 units	
Mathematics	4 units	(4 from the following: Alg.I, Alg.II, Geometry, Alg.III, Trig., or Calculus)
Science	4 units	(4 from the following: Phys.Sci., Bio.I, Bio.II, Chem.I, Chem.II, AP Bio., AP chem., Physics)
Social Studies	4 units	
Computer Science	½ unit	
Foreign Language	2 units	(2 units of For. Lang. OR 2 units of Comp. Science) (same language)
Electives	5 ½ units	

College courses that are taken as electives can be used to qualify as a scholar graduate.

COURSE RETAKE

Students are allowed and encouraged to retake courses if the retake will offer a needed strengthening of skills that has been evidenced. The grades from both courses will be computed in the grade point average. The exception to the averaging process would occur if the retake advanced or maintained class standing in the top ten percent of grade point averages for each class. Thus, if a student took a course over and made a better grade the second time and that better grade caused the student to enter the top ten percent, to maintain standing in the top ten percent or to advance in the top ten percent, the retake would not be used to compute the grade point average.

CHANGE OF SCHEDULE

No student is to change his/her schedule without the consultation of **sending and receiving teachers**, permission of the parent, and guidance counselor. Class minimum and maximum size will be considered. We stress careful selection of courses by the student. Therefore, only necessary changes will be made. A record of each student's schedule is kept in the office showing where the student is each period of the day. Students have five (5) school days from the beginning of school to change class schedules if there is a logical reason approved by the counselor and principal.

If the change will eliminate a mandatory core curriculum class from the students schedule the student and the parents will be provided with a statement informing the student and parent that the class may not be offered again at a time that is convenient for the student. If the student takes the class via concurrent enrollment after dropping the class at the local site the student and the students' parents shall be responsible for all cost associated with the class.

Students who choose to drop or change a class after the fourth (4th) week of the semester will receive a FAILING GRADE for the course dropped and will receive NO CREDIT for the course entered. However, a drop or class change may be recommended by a teacher, counselor, or principal after the fourth (4th) week of the semester to better academically serve the student.

HIGH SCHOOL AND COLLEGE CONCURRENT ENROLLMENT

Concurrent enrollment is a cooperative education program set forth by the State Board of Education and the Regents for Higher Education. Concurrent enrollment allows students enrolled in an accredited Oklahoma high school to be admitted provisionally to a college or university in the Oklahoma State System of Higher Education as special students provided they meet certain requirements.

COLLEGE COURSES

Seminole High School juniors and seniors may enroll concurrently beginning with the summer semester at the end of the sophomore year of high school. In the event that the 24-unit requirement cannot be met because the student is enrolled in a full load of courses, electives of the 24-unit requirement may be waived. Students who are concurrently enrolled will receive college and high school credit for each successfully completed course. All grades will be recorded on a Seminole High School transcript, and will be used in calculation of the student's grade point average at both institutions. If a student fails to achieve required amount of credits due to failure of a college course, the student will be required to complete this credit before graduation.

Student's will not be allowed to drop a college class and return to the high school for credit after the first 15 days of each semester.

DISMISSAL OF SCHOOL IN BAD WEATHER

Occasionally it becomes necessary to dismiss school because of extremely bad weather. This decision must be made by the superintendent, sometimes on short notice. If we have determined by 6:45 a.m. that school should be dismissed for the day, the superintendent's office will notify radio stations KIRC (105.5 FM) and KWSH (1260 AM), Chan. 4TV, Chan. 5TV, Chan. 9TV. They will broadcast a bulletin between 7:45 a.m. and 8:00 a.m. Also, the school's automatic dialer will send a message to the home telephone number of record on the student's personal information.

EARLY DISMISSAL

Efforts will be made to notify parents should it become necessary to dismiss early. The fundamental concern is for the safety and health of the children. How can students and parents help? On severe weather days, tune in to radio station KIRC (105.5 FM) and KWSH (1250 AM), Chan. 4TV, 5TV, 9TV+. The automatic telephone dialer will also notify parents.

HONOR ROLL

Seminole Public Schools has a very fine academic program. Many students excel in the classroom. Each grading period these students are recognized for their efforts by the following criteria: Students who have received no grade below an "A", (All A's) are Superintendent's Honor Roll Students. Students with no grade below a "B", (All A's & B's) are Principal's Honor Roll Students. A 5-point system will be used to calculate the honor rolls.

SCHOOL VISITORS

Parents and patrons of the district are encouraged to visit the district and to observe the activities of the district. Except as otherwise provided, all visitors to the district shall report to the school office after entering the building, shall sign the visitor's register, and shall request appropriate authorization to visit the school from the district official in charge of each building. When parents, patrons and friends have been invited to a school for a particular activity or program, it shall not be necessary to sign the visitor's register or request any additional authorization to visit the school. As authorized by law, the district has the authority and power to direct any person to leave district property who is not a student, officer, or employee, and who interferes with the peaceful conduct of activities, or enters the institution for the purpose of committing an act which may interfere with the peaceful conduct of activities.

TELEPHONES

Students may use the office phones if they are ill and need permission to leave school or to verify an absence. Otherwise, the office phones are for business only.

ATTENDANCE

Parents should call the high school prior to 9:00 a.m. whenever the student is absent (382-1415). When it is known in advance that a student will be absent, the parent should notify school authorities and ask for an excused absence prior to the day of the absence.

ATTENDANCE POLICY

Compulsory school attendance is required by Oklahoma State Law. Poor attendance in school will be reported to the appropriate legal authorities as prescribed by law including but not limited to the District Attorney, Juvenile Justice system, Department of Transportation, etc.

A total of eleven absences in any class for a semester will be cause to receive no credit and a failing semester grade for that class unless each eleventh absence and each absence thereafter is excused by prior arrangement with an administrator or written documentation of illnesses or other extenuating circumstances.

DISTANCE LEARNING ATTENDANCE

In order to ensure that students are in regular attendance in a distance learning environment, student attendance will be recorded based upon daily assignment completion.

In the event that a student be away from the classroom, a student will have an option to learn through the distance learning pathway for the day. Completion of daily assignments will negate an absence.

APPEAL BOARD

Responsibilities:

- Hear appeals on request for absences in excess of ten days for the semester.
- Review documentation and recommend no credit with a failing grade or recommend excusing the absences beyond ten days because of circumstances beyond the control of the student or parent.

Composition:

The Appeal Board will be composed of: Two (2) faculty representatives selected by the principal, and/or a guidance office school representative.

Appeal Board meeting will be held during the final two weeks of each semester. The student's parent/guardian must be present at the meeting. The decision will be presented in writing to the Asst. Principal the following day. The student/parent can receive the decision by contacting the Asst. Principal on the following day. The decision of the Appeal Board will be final.

NOTIFICATION PROCESS

The student and parent/guardian will be notified by a letter sent to the home as listed on the student file in the office that absences have exceeded 10 days of the semester. If the student chooses to appeal, a written request sent by certified mail must be filed with the principal within five (5) school days of the date the notifying letter is post-marked.

ABSENCE

There are two kinds of absences: Excused and unexcused, the kind will be determined by school authorities. Both types of absences affect attendance awards.

I. EXCUSED

- A. Legal absences verified by parent/guardian, illness, doctor, or dental appointments, emergencies, unavoidable circumstances. Excused absences require a telephone call.
- B. To receive an excused absence, the telephone call must be received at school prior to the absence or on the day the student returns to school OR the doctor/court note must be received at school prior to the absence or within five (5) school days of the absence.
- C. Students wishing to have their work sent home should contact the attendance secretary before 9:00 a.m.

II. UNEXCUSED

Unexcused absences are those absences including missing without the knowledge of parent/guardian, leaving school without having officially checked out through the office, staying away from school without notifying the school, truancy, or going home to correct a dress code violation.

- A. Absences not cleared by a parent or guardian prior to the absence or on the day the student returns to school will be unexcused.
- B. All unexcused absences will be counted as truancy with disciplinary penalties assessed. Penalties can include detention or ISD. Unexcused absence violations will result in the student serving one day of detention for each hour missed or ISD for subsequent violations.
- C. Students with unexcused absences will be required to make up the work missed or receive failing grades for that work.

TRUANCY

A student is considered truant when absent from the classroom without the knowledge of either the school or the parent or if the parent does not compel the student to attend school.

CHECKING IN-OUT; LEAVING SCHOOL

- A. If a student arrives at school after the beginning of the first hour class, a check-in slip can be obtained in the office.
- B. If a student has to leave the campus for an appointment or emergency, he/she must check out through the office. However, permission from the parent/guardian must be received.
- C. Students will not leave the school grounds without permission. This applies from the time students arrive on campus in the morning until their dismissal from seventh period.
- D. Any time a student returns to school, he/she must check in through the office.

TARDY POLICY

Students should develop good habits by being prompt to each class. A student who is not in the classroom when the tardy bell rings is considered tardy. Tardy admits are issued by the office.

1. All tardies are unexcused unless the administration decides otherwise.
2. A student is considered tardy if he/she comes in late during the first **20** minutes of the class. Coming in after the first **20** minutes have elapsed will be counted as an absence, not a tardy.
3. In order to be counted present for a class, a student must be present for at least 30 minutes of the class period.

MAKE-UP WORK

All class work missed during an excused absence may be made up. It is the student's responsibility to check with the teacher for make-up work. Students are given one day for each day absent to make up for an excused absence. If a student fails to make up work for an excused absence, a zero will be recorded for work missed. Students under suspension will be required to make up work for these days or receive failing grades for work not made up.

STUDENT ACTIVITIES MAKE-UP WORK

Students participating in school sponsored activities are not recorded as absent from school, however, they will be required to make up any work missed. Students participating in a school activity are required to get their homework from each teacher before the activity occurs. The work is to be turned in on the first school day after the activity ends, unless the teacher has set a pre-determined deadline (research papers, rough drafts, projects, etc.) This includes taking any tests the student was aware of before the activity occurred. When two different activities occur on back-to-back days, students should check each day with teachers or notify teachers before the first activity that more than one day will be missed. It is the responsibility of the student to notify each teacher of the activities the student will miss and clarify all class work expectations.

CAMERA SURVEILLANCE VIDEOS

Seminole Public School District utilizes video cameras to enhance its security operations. Video cameras may be placed in buses, hallways, classrooms, parking lots, commons areas, cafeterias, stadiums, auditoriums, and any other area except locker rooms and restrooms.

Surveillance videos are NOT considered educational records of students and are not subject to the right of inspection by parents specified in the Family Educational Rights and Privacy ACT (FERPA), or subject to disclosure under the Oklahoma Open Records Act. Surveillance videos may be used in disciplinary actions against students and employees and may be publicly disclosed during such disciplinary proceedings.

II. POLICIES AND RULES

Minimum time suspended is at the discretion of the school principal; however, the principal shall not suspend a student in excess of two weeks – ten (10) school days – without first consulting the Superintendent of Schools.

A student may be suspended for the remainder of the semester and the succeeding semester if the administration deems it advisable and in the best interest of the school as a whole.

Suspended students have the right to appeal. Students that are suspended short term may appeal to a local committee. Students who are long term suspended may appeal to the local Board of Education. Students, if suspended for whatever cause, shall be afforded the due process clause of the 14th Amendment of the United States Constitution. Specifically, students shall be given oral or written notice of the charge. Parents will be notified if a student is suspended.

SUSPENSION PLAN

- Students suspended from 1-5 days will be provided school work. The students' parents may pick up assignments by the end of the next school day. Work completed will be given credit according to the suspension. 1st offense, 100%; 2nd offense, 85%; subsequent, 70%.
- Students suspended for more than 5 days (other than weapons or drug related education plan. This plan will cover the subjects in which the student is currently enrolled. The students' parent(s)/guardian will be responsible for providing the student with a supervised structured environment, and will monitor the students' educational progress during the suspension.
- Students suspended for more than 5 days will receive a maximum of 70% on completed work.
- Students who are suspended will not be eligible to participate in extracurricular activities and will not be allowed to attend any school sponsored activity, home or away.

IN-SCHOOL DETENTION (ISD)

If a student's irresponsible behavior persists, that student will not be allowed to remain in the mainstream of school, but will be placed in the In-School Detention classroom. Also, certain serious offenses (smoking, theft, possession or use of an illegal substance, etc.) will result in automatic assignment to ISD. ISD may be served during the regular school day. Students in ISD will not be allowed to attend any school functions or extracurricular activities, home or away until the assigned discipline is completed.

CITIZENSHIP DUTY

Students who deface, destroy or vandalize school property may be assigned to citizenship duty. This duty will be performed after school and will consist of cleaning and/or repairing the school building, property or grounds. Failure to complete citizenship duty will be treated the same as failure to complete detention.

FIGHTING

Fighting at school is unacceptable behavior and illegal. Therefore, students who fight while at school may be punished by the school for their unacceptable actions and by the law enforcement authorities for their illegal actions. This may result in a student being suspended from school and being charged with disturbing the peace by fighting, assault, or charges deemed appropriate by the authorities. A student will receive a suspension for "throwing a punch" or actively participating in a fight.

POSSESSION OR USE OF TOBACCO PRODUCTS

The use and/or possession of tobacco, tobacco products, or e-cigarettes or vape is prohibited. This policy shall apply to all students before, during, and after school hours at school, in any school building, and on any school premise; on any school-

owned vehicle or in any other school-approved vehicle used to transport students to and from school or school activities; off school property at any school-sponsored or school-approved activity, event or function; or during any period of time when students are subject to the authority of school personnel. The penalty for the violation of this policy shall be:

IMMEDIATE REMOVAL

A student whose presence poses a continuing danger to persons or property or an ongoing threat to disrupting the academic process may be immediately removed from school.

WEAPONS

Unless involved personnel discover circumstances that prove inappropriate, possession and/or carrying of dangerous weapons or replicas while on district property, at a school sponsored activity, or on a school bus will result in an immediate long-term suspension. A long-term suspension may extend to the remainder of the semester or to the end of the next succeeding semester. Law enforcement officials will be called immediately when firearms are involved (i.e. powder, air powered, gas powered weapons). Law enforcement officials will be called immediately in regard to all other weapons if school personnel determine that the situation poses a threat to students or personnel. The Seminole School District reserves the right to invoke school discipline independently from legal action. Dangerous weapons include: an automatic or semi-automatic weapon, rifle, shotgun, any pistol, revolver, bb gun, pellet gun or any imitation firearm, dagger, bowie knife, dirk knife, switchblade knife, spring type knife, sword and knife having a blade which opens automatically by hand pressure applied to a button, spring, or other device in the handles of the knife, blackjack, multi-fingered rings, loaded cane, billy hand chain, metal knuckles, or any weapon capable of inflicting serious bodily harm.

Parents are reminded that students in violation of the weapons policy are subject to a long-term suspension. It is a violation of federal law to bring a firearm on or within 1,000 feet of school property. Violators are subject to imprisonment for up to five years, a \$5,000 fine or both fine and imprisonment. Violators will be prosecuted to the full extent allowed by law. (Gun-Free School Zones Act of 1994)

GUN FREE SCHOOL POLICY

Seminole Public Schools requires the expulsion from school for a period of not less than one year any student who brings a firearm to school with exception that the Chief Administrative Officer may modify the expulsion requirements on a case by case basis. **Students with disabilities are subject to this policy and will be disciplined in accordance with district policy and the Individuals with Disabilities Act and Section 504 of the Rehabilitation Act.**

PROHIBITING HARASSMENT, INTIMIDATION AND BULLYING (REGULATION)

The Seminole Public Schools' student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention,

Statement of Board Purpose in Adopting Policy

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.
5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.
6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.
7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim's or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

Definition of Terms

1. Statutory definition of harassment, intimidation, and bullying:

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication, directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

- A. Harm another student;
- B. Damage another student's property;
- C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or
- D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

2. The "Reasonable Person" Standard

In determining what a "reasonable person should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self-esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

3. General Display of Bullying Acts

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

- A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.
- B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.
- C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities, the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers, or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.
- D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual

comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment - also prohibited by Seminole Public Schools.

PROCEDURES APPLICABLE TO THE UNDERSTANDING OF AND PREVENTION OF BULLYING OF STUDENTS

1. Student and Staff Education and Training

All staff will be provided with a copy of the district's policy on prevention of bullying of students. All students will be provided a summary of the policy and notice that a copy of the entire policy is available on request. Seminole Public Schools is committed to providing appropriate and relevant training to staff regarding identification of behavior constituting bullying of students and the prevention and management of such conduct.

Students, like staff members, shall participate in an annual education program that sets out expectations for student behavior and emphasizes an understanding of bullying of students, the district's prohibition of such conduct, and the reasons why the conduct is destructive, unacceptable, and will lead to discipline. Students shall also be informed of the consequences of bullying conduct toward their peers.

2. Seminole Public Schools' Safe School Committee

The safe school committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues that interfere with an adversely affect the maintenance of safe schools.

With respect to student harassment, intimidation, and bullying, the safe school committee shall consider and make recommendations regarding professional staff development needs of faculty and other staff related to methods to decrease student harassment, intimidation, and bullying and understanding and identifying bullying behaviors. In addition, the committee shall make recommendations regarding: identification of methods to encourage the involvement of the community and students in addressing conduct involving bullying; methods to enhance relationships between students and school staff in order to strengthen communication, and fashioning of problem-solving teams that include counselors and/or school psychologists.

In accomplishing its objectives, the committee shall review traditional and accepted harassment, intimidation, and bullying prevention programs utilized by other states, state agencies, or school districts. (See also policy BDFC.)

Student Reporting

Students are encouraged to inform school personnel if they are the victim of or a witness to acts of harassment, intimidation, or bullying.

Staff Reporting

An important duty of the staff is to report acts or behavior that the employee witnesses that appears to constitute harassing, intimidating, or bullying. Employees, whether certified or noncertified, shall encourage students who tell them about acts that may constitute intimidation, harassment, or bullying to complete a report form. For young students, staff members given that information will need to provide direct assistance to the student.

Staff members who witness such events are to complete reports and to submit them to the employee designated by the superintendent to receive them. Staff members who hear of incidents that may, in the staff member's judgment, constitute harassment, intimidation, or bullying, are to report all relevant information to the superintendent or his/her designee.

Parental Responsibilities

Parents/guardians will be informed in writing of the district's program to stop bullying. An administrative response to bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

1. Report bullying when it occurs;
2. Take advantage of opportunities to talk to their children about bullying;
3. Inform the school immediately if they think their child is being bullied or is bullying other students;
4. Watch for symptoms that their child may be a victim of bullying and report those symptoms, and
5. Cooperate fully with school personnel in identifying and resolving incidents.

Discipline of Students

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract

The above consequences will be imposed for any person who commits an act of bullying as well as any person found to have falsely accused another as a means of retaliation, reprisal, or as a means of bullying. Strategies will be created to provide counseling or referral to appropriate services, including guidance, academic intervention, and other protection for students, both targets and perpetrators, and family members affected by bullying, as necessary.

BULLYING

It is the policy of this school district that bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school. The school district is not required to provide educational services in the regular school setting to any student who has

been removed from a public school or private school in Oklahoma or another state by administrative or judicial process for an act of using electronic communication with the intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or students.

As used in the School Safety and Bullying Prevention Act, "bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Such behavior is specifically prohibited.

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

HAZING

It is the policy of this school district that no student or employee of the district shall participate in or be members of any secret fraternity or secret organization that is in any degree related to the school or to a school activity. No student organization or any person associated with any organization sanctioned or authorized by the board of education shall engage or participate in hazing.

For the purposes of this policy, hazing is defined as an activity that recklessly or intentionally endangers the mental health or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization sanctioned or authorized by the board of education.

"Endanger the physical health" shall include, but is not limited to, any brutality of a physical nature, such as whipping; beating; branding; forced calisthenics, exposure to the elements; forced consumption of any food, alcoholic beverage, drug, or controlled dangerous substance; or other forced physical activity which could adversely affect the physical health or safety of the individual.

"Endanger the mental health" shall include any activity, except those activities authorized by law, which would subject the individual to extreme mental stress, such as prolonged sleep deprivation, forced prolonged exclusion from social contact, forced conduct which could result in extreme embarrassment, or any other forced activity which could adversely affect the mental health or dignity of the individual.

Any hazing activity upon which the initiation or admission into or affiliation with an organization sanctioned or authorized by the board of education is conditioned, directly or indirectly, shall be presumed to be a forced activity, even if the student willingly participates in such activity.

This policy is not intended to deprive school district authorities from taking necessary and appropriate disciplinary action toward any student or employee. Students or employees who violate this policy will be subject to disciplinary action that may include suspension for students and employment termination for employees.

INVESTIGATING REPORTED INCIDENTS OF HARASSMENT, INTIMIDATION, BULLYING OR THREATENING BEHAVIOR

The following conduct, as defined and specified above, by any person or persons and directed toward any person or persons or the property thereof is specifically prohibited by the district:

- Harassment
- Intimidation
- Bullying

The above prohibitions apply to such conduct at school and/or by electronic communication and whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, bullying or intimidation at school.

Any student who believes he/she has been subjected to acts of harassment, intimidation or bullying as specified above shall immediately report such incident to one of the student's teachers or to the student's school principals. If reported to a teacher, the teacher shall immediately notify the school principal. Students are advised of the importance of reporting these incidents to school officials so that school officials may know about them, investigate them and take any actions deemed appropriate.

Upon notification of such an incident by the student or student's teacher, the school principal shall investigate the incident to determine its severity and its potential to result in future violence. The alleged incident shall be documented in writing by the principal. The investigation shall be made in a timely fashion. At the principal's discretion, the investigation may include interviews with students and/or faculty who may have knowledge of the incident; collection of documentary or other evidence relating to such incident; involvement of local/state/federal law enforcement authorities; involvement of other district officials who may be of assistance and/or guidance in the matter; and/or any other legal means by which the investigation may be facilitated.

Consideration shall be given to recommendations made by the Safe School Committee regarding the most recent and most effective methods for investigating, evaluating and responding to such matters. When the investigation has been completed,

the district shall administer any and all sanctions as deemed appropriate in light of the determination it has made regarding the incident of harassment, intimidation or bullying.

Sanctions and various options for control and discipline of students which may be considered and/or implemented are set forth in the school's disciplinary policy. In addition, the district may recommend that available community mental health care options be provided to the student if appropriate. Students subject to sanctions under this policy shall have due process and appeal rights as stated in the school's disciplinary policy. At its discretion, the district may request disclosure of any information concerning students who have received mental health care relating to acts of harassment, intimidation or bullying, or the like, that indicate an explicit threat to the safety of students or school personnel, provided that the disclosure of such information is not made in violation of any federal or state law pertaining to the disclosure of confidential student information. The request for such information shall be made in writing to the party from whom it is requested. Requests for such disclosure from another district as they relate to a student of this district shall be handled accordingly.

GANG ACTIVITY

It is the policy of this school district that membership in secret fraternities or sororities or in other clubs or gangs not sponsored by established agencies or organizations are prohibited. Gangs which initiate, advocate, or promote activities which threaten the safety or well-being of persons or property on school grounds or which disrupt the school environment are harmful to the educational process. The use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of grooming which, by virtue of its color, arrangement, trademark, symbol, or any other attribute which indicates or implies membership or affiliation with such a group presents a clear and present danger to the school environment and educational objectives of the community and are forbidden.

Incidents involving initiations, hazing, intimidation, and/or related activities of such group affiliations which are likely to cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to students are prohibited.

Any student wearing, carrying, or displaying gang paraphernalia, or exhibiting behavior or gestures which symbolize gang membership, or causing and/or participating in activities which intimidate or affect the attendance of another student will be subject to disciplinary action including suspension. Also, all school photographs will be reviewed for any display of gang gestures.

OFF-CAMPUS MISCONDUCT

A student who engages in misconduct away from the school setting which has an adverse or threatening effect on the discipline or welfare of the school may be subject to suspension or disciplinary action.

Misconduct includes but is not limited to:

- Possession or use of a weapon
- Attack on a fellow student or student from a neighboring school district, school official, or employee
- Sale, use or possession of alcohol or a controlled dangerous substance
- Assault and/or battery on a fellow student, student from a neighboring school district, school official, or employee.
- Damage or destruction to property of another student, school official, or employee

POLICY FOR NON-PERFORMANCE IN THE CLASSROOM

Each student should arrive at each class with proper materials and during the course of the class should work diligently to complete assigned tasks. Deadlines for class work due should be respected by the student and a high priority given to meeting those deadlines. Continual non-performance by a student in the classroom will be regarded as a misbehavior violation.

STUDENT SEARCH POLICY

A search of a student or student property may be conducted for the purposes of safeguarding the educational process, maintaining discipline and order, promoting the safety and security of persons and their property, or recovering of stolen property. A search of a student may be conducted when a student is on district property, in transit to and from, or attending any function sponsored or authorized by the district.

LOCKERS

Student lockers are the property of the school and are only assigned to the student for the purpose of storage of school supplies and personal property; coats, jackets, etc. Students are to use only the locker assigned. Under no circumstances should students leave valuables or money in lockers. The school cannot be responsible for lost or stolen items. SCHOOL OFFICIALS HAVE THE RIGHT TO CONDUCT LOCKER CHECKS AT ANY TIME.

STUDENT DRIVERS - - PARKING

Student safety is a great concern. The following procedures must be followed:

1. Students must have a valid Oklahoma driver's or operator's license.
2. Students must maintain reasonable, safe vehicles.
3. Students must park in student designated parking lots.
4. Students are not to sit in their vehicles after they arrive at school in the morning or at lunch. Students must park their vehicle and get out of it.
5. Students may not go to parking lots between classes. No exceptions without permission by the principal.
6. Safety regulations must be followed at all times. Speed limits must be observed.
7. All students must have a parking permit.
8. Driving is a privilege and should be regarded as such. Disregard for the driving and parking rules will result in loss of driving privileges.

All vehicles on school grounds are subject to search by school officials. Students are reminded to lock their vehicles while at school and that the Seminole Public Schools cannot be responsible for property that is stolen from vehicles, or for any damages done to a vehicle parked on school property.

DRESS AND APPEARANCE

The Seminole Public School District takes pride in the appearance of its students. This District's dress code and grooming standards have been established to teach grooming and hygiene, to prevent disruption, and to minimize safety hazards at school or school-related functions. All students shall wear clothing that is neat, appropriate, and modest to the gender of that student. There is a close relationship between high standards of dignity, pride, and proper grooming which contribute to an appropriate learning environment. Modesty will be the dominant feature in all clothes. Attire shall be clean and inoffensive. The student and parent shall share the responsibility for proper grooming of the student; however, the campus administrator has the final authority concerning the propriety of clothes, hairstyle and jewelry. The school campus, like a workplace, promotes a productive, business like atmosphere that is conducive to learning. Students should familiarize themselves with these standards as the dictates of popular fashions may be inconsistent with the following guidelines:

1. Skirts/dresses/shorts shall not be shorter than mid-thigh. The length must not be shorter than the student's longest finger when arms are relaxed and to the side. This includes clothing worn over leggings/tights. No spandex, bike or boxer shorts/pants shall be worn;
2. Shoulder straps shall be a minimum of three (3) inches (halter tops, backless clothing, and attire with over-sized arm openings that expose undergarments or upper body areas are not allowed);
3. No low-cut tops; midriff must be covered; no see-through clothing including pants, shorts, etc. with holes, rips, or tears above the tip of the longest finger are allowed;
4. No clothing or tattoos with reference to alcohol, drugs, sex, tobacco, vulgar language, violence, gang related affiliation, or other symbols that detract from the learning environment are allowed;
5. No hats, caps or other headwear shall be worn in buildings;
6. No visible body piercing jewelry, that causes a distraction or poses a safety risk shall be allowed;
7. In order to ensure that students are on task and learning is taking place, both male and female students must wear their hair so that the entire eye is visible;
8. No gang related attire (colors, bandanas, shoe laces, symbols) are allowed;
9. No chains which have the potential to be used as a weapon are allowed;
10. No collars intended for use on animals, including spike collars/wristbands are allowed;
11. Hair which is not clean shall be unacceptable;
12. Students shall wear shoes at all times. Flip-flops (thongs) shall not be permitted; and
13. No pajama pants or house shoes are permitted.

If a student is sent home because of a dress code violation, it is not an expulsion or suspension, but a disciplinary measure to correct the violation. The student should return immediately to school because while a student is absent, he/she is unexcused

during that time away from school. A student who checks out for dress code issues will be assigned detention if checked out for more than 15 minutes. Unexcused absence violations will result in the student serving one day detention for each hour missed.

It is the responsibility of the Principal to ensure that this policy is enforced; however, other personnel may assist in the enforcement of this policy and are encouraged to do so.

INTERPRETIVE AUTHORITY

The examples and guidelines listed above may not cover every possible instance of appropriate or inappropriate grooming and appearance. The interpretive authority as to what dress or grooming is inappropriate, disruptive, a hindrance to the best learning environment, or a detriment to best discipline shall be vested in the principal or any other administrative authority in the school system.

EMERGENCY WARNINGS

In order to be prepared for an emergency, several lockdown, fire and tornado drills will be conducted each year as required by law. Directions indicating where students are to go and the route to be taken are posted in each classroom. Talking should stop when the alarm is sounded. The students should move quickly, following the posted directions. Students should return to class in the same manner.

DELIVERIES

In order to avoid disruptions to the educational process, no deliveries (i.e. balloons, flowers, lunches etc.) will be allowed at school except for birthdays.

ELIGIBILITY

Eligibility for high school extracurricular activities is determined by regulations of the Oklahoma Secondary School Activities Association. OSSAA rules and regulations will be followed for all students. In order to be eligible, a student must have passed a minimum of five (5) classes the preceding semester. (P.E., Athletics, Yearbook and Newspaper MAY BE COUNTED.) A STUDENT MUST BE PASSING ALL CLASSES ON A WEEK-TO-WEEK BASIS.

A student who is ineligible at the end of a semester because he/she did not pass five (5) subjects may regain his/her eligibility at the end of the 6th week of the next semester by maintaining a passing grade in all classes in which the student is enrolled.

Eligibility Rules:

1. In order to be eligible to participate in an activity, students are to be in school at least ½ day that the activity occurs. If the student is absent from school on the day of the activity, he/she will not be allowed to participate in that activity. Exceptions may be made for prearranged appointments, funerals, emergency situations, etc. The one-half day rule applies to all extracurricular activities.
2. Students who are suspended from school will not participate in extracurricular activities until reinstatement in school has occurred, and notification is given to the sponsor/head coach in that activity. Further or continual suspension from activities may occur if the severity of the offense warrants. The high school principal, activity director, and sponsor/head coach shall meet to determine this.

Conduct

The conduct of a student involved in activities at Seminole High School is closely observed in many areas of everyday life. It is important the actions at all times be above reproach. The students should set the example for all students by following completely the policies set forth by the administration and individual sponsors. On activity trips the student not only represents himself/herself, but also the community, the school, his/her sponsors, and parents; thus it is expected that all concerned will dress and behave in an acceptable manner. This will be left to the discretion of the sponsor.

Any student going to a school sponsored activity must travel to and from the event with the school group. The only exceptions will be when the parent/guardian picks up the student at the event after clearance with the sponsor. Emergency situations will be determined by the administration.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible student") certain rights with respect to the student's education records. They are: (1) the right to inspect and review the student's education records within 45 days of the day the District receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. (2) the right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. (3) the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company whom the District has contracted to perform a special task such as a disciplinary or grievance committee, or assisting another school official in performing his/her

tasks.) A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (4) the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA are: Family Policy Compliance Office

U.S. Department of Education
600 Independence Avenue, SW
Washington, D.C. 20202-4605

PROCEDURES TO INSPECT EDUCATION RECORDS

Parents of students and eligible students may inspect and review the student's education records upon request. In some circumstances, it may be mutually more convenient for the school counselor to provide copies of records. Since a student's records may be maintained in several locations, the school principals (or counselor) will offer to collect copies of records or the records themselves from locations other than a student's school, so they may be inspected at one site. However, if parents and eligible students wish to inspect records where they are maintained, school principals (or counselor) will make every effort to accommodate their wishes. Parents or eligible students should submit to the student's school principal a written request which identifies as precisely as possible the record or records he/she wishes to inspect. The principal (or counselor) will contact the parent of the student or the eligible student to discuss how access will be best arranged (copies, at the exact location, or records brought to a single site). The principal (or counselor) will make the needed arrangements as promptly as possible and notify the parent or eligible student of the time and place where the records may be inspected. This procedure must be completed in 45 days or less from the receipt of the request for access. If for any valid reason such as working hours, distance between record location sites, or health, a parent or eligible student cannot personally inspect and review a student's education record, the Seminole School District will arrange for the parent or eligible student to obtain copies of the record.

PARENTAL INVOLVEMENT POLICY

We realize that the parent is the child’s first and most important teacher, and that the parent’s continued involvement is essential for the success of the child. Therefore, Seminole Public Schools is committed to building a strong parent-school partnership.

To support the parent-school partnership, the following policies were designed with meaningful consultation from parents:

At the beginning of each school year, a school-parent compact, developed through parent and staff input, will be distributed asking parents and students to commit to a partnership with the school. An annual Title I meeting will be held at the district level to which parents of all students will be invited. The contents of the annual meeting will consist of information pertaining to the program and activities provided with Title I funds. This meeting will also serve as an opportunity for parents to become informed, in a timely way, about how the program will be designed, operated, and evaluated. Parental involvement activities will be provided. When needed, transportation and childcare can be provided. The purpose and content of parental involvement activities will be:

To make parents aware of the importance of parental involvement requirements and other relevant provisions of the program, and to receive input from the parents concerning the manner in which the school and parents can work together to achieve the program’s objectives.

To provide accessibility for parents to teachers, Title I staff, and other educational personnel;

To provide information regarding the school curriculum and to welcome parents to observe the total school program;

To provide opportunities for parent-teacher conferences to discuss the student’s progress, placement, and methods the parent can use to complement the child’s instruction;

To discuss ways the school staff can best provide information, programs, and activities in a language and form the parents can understand;

To provide support to parents through training and services;

To provide information concerning the Oklahoma Criterion-Referenced Test (OCRT), the state mandated assessment process;

To provide information on the Literacy First process utilized by Oklahoma teachers.

Appropriate training will be provided to all staff members to increase the effectiveness of the partnership between home and school. The training will be in the form of workshops, professional development sessions, and conferences. The Title I staff will coordinate parent activities with other groups such as Extended School and the Family Resource Center.

1. Parents will be provided with ongoing communication through quarterly progress reports.

This district-wide Parental Involvement Policy has been developed jointly with parents of children participating in Title I, Part A programs. This policy was adopted by the Seminole Public School District on May 8, 2006, and will be in effect indefinitely with annual updates and revisions. The school district will distribute this policy to all parents of participating Title I, Part A children.

Educationally appropriate: Courses which are academically well suited for an individual student's current academic standing and the learning expectations of the district and State. The determination of educationally appropriate will be made at the site level.

Online: uses the World Wide Web as the primary medium of instruction, with a computer serving as the primary tool of instruction.

Guidelines

1. School district policies governing grading scales and credits earned shall be applied to supplemental online courses in the same manner as any other course offered by the district.
2. Only students enrolled in the district will be granted access to supplemental online courses.
3. Requests for enrollment in supplemental online courses shall be as follows:
 - a. Interested students will submit a completed Supplemental Online Request Form.
 - b. The principal or designee will evaluate the application and determine whether the course(s) is educationally appropriate.
 - c. If the course(s) is not deemed educationally appropriate, notification will be provided to the student in writing as to the reasons the determination was made. The student will be afforded the opportunity to appeal the decision to the site Supplemental Online Course Appeal Committee. The decision of the site committee with regard to whether a course is educationally appropriate is final and non-appealable.
4. Students enrolled in supplemental online courses will have a fifteen (15) day grace period to withdraw from the course without academic penalty.
5. Student progress shall be monitored on a weekly basis by the supplemental online course provider. Attendance/participation shall be monitored in accordance with district policies. The student may be counted "present" or "in attendance" when the supplemental online course provider supplies evidence of student/teacher/course interaction that demonstrates student progress and regular student engagement in course activity. Supplemental online course providers shall make available to students, parents, and the school district reports which reflect daily attendance/participation, progress reports, and grades. Such reports shall be provided via electronic format on a weekly basis.
6. Instructors of supplemental online courses shall be: (a) certified in Oklahoma or another state to teach in the content area of the course offered, or (b) a faculty member at an accredited institution of higher learning, possessing the specific content expertise necessary to teach the course.

ONLINE COURSES Occasionally, due to a scheduling conflict or extenuating circumstances, a student may be enrolled in one or more online courses, which may duplicate district course offerings. The determination will be at the sole discretion of the site administration. Students earning credit by means of online courses shall participate in all state-level academic assessments in the same manner as other regularly enrolled students.

SEMINOLE PUBLIC SCHOOLS

ACTIVITY STUDENT DRUG TESTING POLICY

The Seminole Board of Education, in an effort to protect the health and safety of its extra-curricular activities students from illegal and/or performance-enhancing drug use and abuse, thereby setting an example for all other students of the Seminole Public School District, proposes to adopt the following policy for drug testing of activity students.

STATEMENT OF PURPOSE AND INTENT

Although the Board of Education, administration, and staff desire that every student in the Seminole Public School District refrain from using or possessing illegal drugs, district officials realize that their power to restrict the possession or use of illegal and performance-enhancing drugs is limited. Therefore, this policy governs only performance-enhancing and illegal drug use by students participating in certain extra-curricular activities. The sanctions imposed for violations of this policy will be limitations solely upon limiting the opportunity of any student determined to be in violation of this policy to a student's privilege to participate in extra-curricular activities. No suspensions from school or academic sanctions will be imposed for violations of this policy. This policy supplements and complements all other policies, rules, and regulations of the Seminole Public School District regarding possession or use of illegal drugs.

Participation in school-sponsored interscholastic extra-curricular activities at the Seminole Public School District is a privilege. Students who participate in these activities are respected by the student body and are representing the school district and the community. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of illegal drugs.

The purposes of this policy are five-fold:

1. To educate students of the serious physical, mental and emotional harm caused by illegal drug use.
2. To alert students with possible substance abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well-being and offer them the privilege of competition as an incentive to stop using such substances.
3. Ensure that students adhere to a training program that bars the intake of illegal and performance-enhancing drugs.
4. To prevent injury, illness, and harm for students that may arise as a result from illegal and performance-enhancing drug use.
5. To offer students practices, competition and school activities free of the effects of illegal and performance-enhancing drug use.

Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon participants in extra-curricular activities and upon the positive image these students project to other students and to the community on behalf of the Seminole Public School District. For the safety, health and well-being of students in extra-curricular activities, the Seminole Public School District has adopted this policy for use by all participants in interscholastic extra-curricular activities in grades 7-12. The administration may adopt regulations to implement this policy.

I. Definitions

"Activity Student" means a member of any middle school or high school Seminole Public School District sponsored extra-curricular organization which participates in interscholastic competition. This includes any student that represents Seminole Schools in any extra-curricular activity in interscholastic competition, such as FFA, FHA, Academic Team, Band, Vocal, Pom Squad, Cheerleader and Athletics.

"Drug Use Test" means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs or the metabolites thereof in a person's urine.

"Random Selection Basis" means a mechanism for selecting activity students for drug testing that:

- A. results in an equal probability that any activity student from a group of activity students subject to the selection mechanism will be selected, and
- B. does not give the School District discretion to waive the selection of any activity student selected under the mechanism.

"Illegal drugs" means any substance which an individual may not sell, possess, use, distribute or purchase under either Federal or Oklahoma law. "Illegal drugs" includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substance Act, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose. "Illegal drugs" shall also include alcohol.

"Performance-enhancing drugs" include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed or other athletic ability. The term "performance-enhancing drugs" does not include dietary or nutritional supplements such as vitamins, minerals and proteins which can be lawfully purchased in over-the-counter transactions.

"Positive" when referring to a drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.

"Reasonable suspicion" means a suspicion of illegal or performance-enhancing drug use based on specific observations made by coaches/administrators/sponsors of the appearance, speech, or behavior of an activity student; the reasonable inferences that are drawn from those observations; and/or information of illegal or performance-enhancing drug use by an activity student supplied to school officials by other students, staff members, or patrons.

II. Procedures

Each activity student shall be provided with a copy of the "Student Drug Testing Consent Form" which shall be read, signed and dated by the student, parent or custodial guardian and coach/sponsor before such student shall be eligible to practice or participate in any extra-curricular activities. The consent may require the activity student to provide a urine sample: (a) as part of the student's annual physical or for eligibility for participation; (b) when the activity student is selected by the random selection basis to provide a urine sample; and (c) at any time when there is reasonable suspicion to test for illegal or performance-enhancing drugs. No student shall be allowed to practice or participate in any extra-curricular activities involving interscholastic competition unless the student has returned the properly signed "Student Drug Testing Consent Form."

Prior to the commencement of drug testing each year an orientation session will be held with each Activity Student to educate them of the sample collection process, privacy arrangements, drug testing procedures and other areas which may help to reassure the activity student and help avoid embarrassment or uncomfortable feelings about the drug testing process.

Each Activity Student shall receive a copy of the Activity Student Drug Testing Policy. The head coach or sponsor shall be responsible for explaining the Policy to all prospective students, and for preparing an educational presentation to acquaint the student with the harmful consequences of drug and alcohol use and abuse.

Activity Students may be required to provide a urine sample before the student may participate in an extra-curricular activity covered under this policy. A student who moves into the district after the school year begins may have to undergo a drug test before they will be eligible for participation.

Drug use testing for Activity Students will also be chosen on a random selection basis monthly from a list of all Activity Students who are involved in off-season or in-season activities. The Seminole Public School District will determine a monthly number of student names to be drawn at random to provide a urine sample for drug use testing for illegal drugs or performance-enhancing drugs.

In addition to the drug tests required above, any Activity Student may be required at any time to submit to a test for illegal or performance-enhancing drugs, or the metabolites thereof when an administrator, coach, or sponsor has reasonable suspicion of illegal or performance-enhancing drug use by that particular student.

Any drug use test will be administered by or at the direction of a professional laboratory or other professional facility chosen by the Seminole Public School District. The professional laboratory shall be required to use scientifically validated toxicological testing methods, have detailed written specifications to assure chain of custody of the specimens, and proper laboratory control and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal/athletic director shall designate a coach, sponsor, or school employee of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall.

The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal/athletic director who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications legally prescribed for the student he or she has taken in the preceding thirty (30) days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the twenty-four (24) hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope and shall not be viewed by district employees.

III. Confidentiality

The laboratory will notify the principal/athletic director or designee of any positive test. To keep the positive test results confidential, the principal/athletic director or designee will only notify the student, the head coach/sponsor, and the parent or custodial guardian of the student of the results. The principal/athletic director or designee will schedule a conference with the student and parent or guardian and explain the student's opportunity to submit additional information to the principal/athletic director or to the lab. The Seminole Public School District will rely on the opinion of the laboratory which performed the test in determining whether the positive test result was produced by something other than consumption of an illegal or performance-enhancing drug.

Test results will be kept in files separate from the student's other educational records, shall be disclosed only to those school personnel who have a need to know, and will not be turned over to any law enforcement authorities.

IV. Appeal

An Activity Student who has been determined by the principal/athletic director to be in violation of this policy shall have the right to appeal the decision to the Superintendent or his/her designee(s). Such request for a review must be submitted to the Superintendent in writing within five (5) calendar days of notice of the positive test. A student requesting a review will remain eligible to participate in any extra-curricular activities until the review is completed. The Superintendent or his/her designee(s) shall then determine whether the original finding was justified. No further review of the Superintendent's decision will be provided and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the Superintendent which shall be final and non-appealable.

V. Consequences

Any Activity Student who tests positive in a drug test under this policy shall be subject to the following restrictions:

A. For the First Offense:

The parent/guardian will be contacted immediately and a private conference will be scheduled to present the test results to the parent/guardian. A meeting will then be set up with the student, parent/guardian, athletic director, and principal concerning

the positive drug test. In order to continue participation in the activity the student and parent/guardian must, within five (5) days of the joint meeting, show proof that the student has received drug counseling from a qualified drug treatment program or counseling entity. Additionally, the student must voluntarily submit to a second drug test to be administered within two (2) weeks in accordance with the testing provisions of this policy.

If parent/guardian and student agree to these provisions, the student will continue to participate in the activity. Should the parent/student not agree to these provisions the consequences listed in this policy for the second offense will be imposed.

B. For the Second Offense:

Suspension from participation in all activities covered under this policy for (7) calendar days, and successful completion of four (4) hours of substance abuse education/counseling provided by the school and/or qualified drug treatment program or counseling entity. The student may not participate in any meetings, practices, scrimmages or competitions during this period. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee. Additionally the student will be required to submit to a substance abuse assessment performed by a licensed drug treatment program, and complete any recommended treatment in addition to the substance abuse education/counseling provided by the school.

These restrictions and requirements shall begin immediately, consecutive in nature, unless a review appeal is filed following receipt of a positive test. Provided, however, a student who on his or her own volition informs (self-refers) the athletic director, principal, or coach/sponsor of usage before being notified to submit to a drug use test will be allowed to remain active in all activities covered under this policy. Such student will however, be considered to have committed his/her first offense under the policy, and will be required to re-test as would a student who has tested positive.

C. For the Third Offense (in the same school year):

Suspension from participation in all activities covered under this policy for (14) calendar days, and successful completion of four (4) additional hours of substance abuse education/counseling provided by the school and/or qualified drug treatment program or counseling entity. The student may not participate in any meetings, practices, scrimmages or competitions during this period. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee. Additionally the student will be required to provide proof that they are complying with, or have successfully completed, the treatment program recommended by the licensed drug treatment program set out above.

D. For the Fourth Offense (in the same school year):

Complete suspension from participation in all extra-curricular activities including all meetings, practices, performances, and competition for the remainder of the school year, or eighty-eight school days (1 semester) whichever is the longer.

VI. Refusal to Submit to Drug Use Test

A participating student who refuses to submit to a drug test authorized under this policy, shall not be eligible to participate in any activities covered under this policy including all meetings, practices, performance and competitions for the remainder of the school year. Additionally, such student shall not be considered for any interscholastic activity honors or awards given by the school.

Seminole Public Schools is committed to cooperating with parents/guardians in an effort to help students avoid illegal drug use. The Seminole Public School District believes accountability is a powerful tool to help some students avoid using drugs and that early detection and intervention can save lives.

DISTANCE LEARNING POLICY

Students grade 9-12 are eligible to participate in distance learning.

Instruction:

Classes will be taught and supervised by Seminole High School certified instructors.

Schedule Change:

In an effort to ensure that students are placed in a learning program that is most beneficial for their learning style students can elect to change learning pathways within the first 14 days of the semester. The student, parent/guardian, and teacher work together to make this decision.

After the first 14 days a decision to move learning pathways will be made by the local education committee.

Classes Available:

All classes offered through traditional instruction are also available through distance learning. All students will be enrolled in a regular hourly course schedule.

Accessibility:

- Students will have access to school issued devices.
- Internet access is necessary to access and complete virtual lessons, view grades, and receive teacher support.
 - If this is a barrier for your family, please contact your building administration.
- Students will have access to their classroom digitally during their regular scheduled class hour.
- Students will have the ability to communicate with teachers through email, google classroom, google meet, and learning platforms of the teachers choice.

- Students will have access to the school site library during regular school hours.
- Students will have access to school counselors.

Special Education:

A student on a 504 or an IEP should consult with the school administrator and the district special education department to determine most appropriate placement.

Testing:

Students must complete state standardized tests. Formative and summative assessments throughout the year help develop the skills needed to perform well on state tests. SPS teachers will let you know where and when your child is scheduled to test.

The district requires 9-12 students to complete benchmark assessments during the academic year. Assessments take place at a school site and are conducted by an SPS staff. If this is not possible, please contact Seminole High School at (405) 382-1415.

Extracurricular activities:

Students may participate in extracurricular activities and/or clubs in Seminole Public Schools. For some activities, the student may need to be enrolled in a traditional class such as football or choir in order to participate in competitions or contests. Students also need to maintain eligibility according to OSSAA in order to participate in games or contests.
