

Math

Procedure 2403P

Demonstrating Competency/Proficiency in Math

The district will manage the assessment process so that students seeking competency-based credit can demonstrate competency/proficiency in math. Students may demonstrate competence in the following ways:

1. The student may recover up to 1 credit following a failed or incomplete math course if the student meets standard on a state assessment in the equivalent math subject;
2. The student may recover 1 math credit following a failed or incomplete math course if the student meets standard on another approved state alternative that meets the graduation requirement; SAT earning a cut score of 430 or higher and/or ACT earning a cut score of 16+. Students can earn 1 credit for Algebra 1, Algebra 2, or Geometry.
3. The student may obtain 1 math credit for passing an Odysseyware end of course assessment in a like course. Students do not need to have attempted and failed a course before being eligible for this option.

Additionally, the student may demonstrate competency/proficiency in a math subject and be awarded credit if the student achieves a C or higher grade in the next-higher level course in that math subject (algebra, and geometry).
