Let's Go! 5-2-1-0

The following was an email from Emily Walters, the director of the Let's Go! Program, "Schools are recognized when they are implementing Let's Go!'s environmental and policy strategies that support healthy eating and active living. School Cafeterias are recognized when they are implementing best practices that reduce waste, increase participation, and make changes that help nudge students to make healthier choices.

We are pleased to announce that **Readfield Elementary School** is a recognized Let's Go! site for the 2019-20 program year AND the cafeteria has achieved 2020 Let's Go! Smarter Lunchroom recognition. We applaud the efforts of **Jada Clark** who oversees the Let's Go! 5-2-1-0 work and **Jeff Bridges** who oversees the Let's Go! Smarter Lunchrooms work. Reaching this status is no easy task."

Congratulations to Jada Clark and the late Jeff Bridges for their time and effort in supporting the health of our students.

DUE TODAY

Here is a link to order Black bear clothing, a mix of adult, women's, and youth.

Online store is open until **October 2nd**.
