My child has COVID-19 symptoms. When can they go back to

HEALTHCARE PROVIDER (HCP) EVALUATION FOR COVID-19 (can be in-person or by video/telephone as determined

Your local health department will contact you to follow up.

Your child must remain in isolation (at home and away from others) until your local health department has released them from isolation, which is typically:

- 10 days after symptom onset; AND
- Child's symptoms are improving; AND
- · Child is fever-free for at least 72 hours without use of fever reducing medicines.

While your child is in isolation, all members of the household must quarantine at home until released by the local health department, typically 14 days.

Note: A repeat negative COVID-19 test is not required for return to school.

If your child's symptoms are improving **AND** they are fever-free for at least 24 hours without the use of fever reducing medicines, your child may return to school with:

- A note from HCP indicating the test was negative OR
- · Provide a copy of the negative test result.

If your child's HCP provides a diagnosis of a known chronic condition with unchanged symptoms, or a confirmed acute illness (examples: laboratory-confirmed influenza, strep-throat) AND COVID-19 is not suspected, then a note signed by their HCP explaining the alternate diagnosis is required before your child will be allowed to return to school. They may return to school according to the usual guidelines for that diagnosis.

HCP Gives

Alternate Diagnosis

Note: a signed HCP note documenting unconfirmed acute illnesses, such as viral upper respiratory illness (URI) or viral gastroenteritis, will not suffice.

confirmatory molecular test. Serology (antibody testing) cannot be used to rule in or out ac

Chil

COVID-19 diagnostic testing includes molecular (e.g., PCR) or antigen testing for SARS-CoV COVID-19. Diagnostic testing may be performed with a nasopharyngeal swab, nasal swab, the health care provider and per laboratory specifications. At times, a negative antigen test
