South Summit Elementary Newsletter

Reading Testing Update
We appreciate all parents’ efforts this last year. After analyzing the reading scores of all students that were tested the past 3 weeks we know that we have some work to do. We need your help. We appreciate all you do and your efforts and hope you can keep supporting your student at home to bring up those scores. We will be doing our best effort here at the school as well.

A message from Mrs. Flinders....
Our school has decided to join in spreading the idea that there is hope for the next 100 days and even more hope that 2021 will be amazing! Please remember that this is just an invitation. It is not one more thing to do. If your plate is full and you can’t do one more thing, that is perfectly fine. But, if you do have a moment to lift someone else, please join me and others in spreading hope. I will share a few ideas and suggestions each week. Each week we will focus on a different group of possible recipients.

Nurses Corner
Thank you for keeping your kids’ home when they are sick! You are helping our school stay safe.

New this year, the Nurses will be providing flu shots for the entire community. Please see the attached flyer for more details.

Tuesday
October 6th

Professional Learning Day-
NO SCHOOL-October 30th
