This belief naturally leads us to an admission process that relies on a holistic, comprehensive review in which each application is treated personally and individually, with extraordinary care, and with great attention to detail and personal context. There are no equations employed in the application review process - it is a time-intensive and personal process aimed at getting to know each applicant as a complete person.

Financial aid is any assistance given to a student to help pay for the cost of college. The assistance can take the form of gift aid, which does not have to be repaid. Scholarships and grants are gift aid. Financial aid can also take the form of self-help aid—money that has to be paid back or earned. Loans and federal work study employment are examples of self-help assistance.
SCHEDULE A VISIT
https://ozarks.edu/admissions-aid/schedule-a-visit/

The college visit is probably the most important part of the college search because it is the only way you will know for sure if the college feels right for you. College mailings and websites will give you the facts; the college visit will let you experience the community.

ADMISSIONS

Applicants are evaluated on an individual basis. We take a more holistic approach, taking into account courses and grades, GPA, ACT or SAT test scores, and volunteer or service activities in your school or the community. More importantly, our admission staff will work with you to ensure that Ozarks is the best place to enhance who you are for the future you want. Feel free to contact us with further questions.

Visit Sewanee
https://new.sewanee.edu/admission-aid/visit/campus-visit-options/

Due to uncertainty regarding the growing intensity and duration of the pandemic, we have made the difficult decision to postpone all in-person campus visits and events until December 2020. We encourage prospective students and their families to take advantage of our virtual visits.

Admission
https://new.sewanee.edu/admission-aid/

Applying to Sewanee is about as straightforward as it can be. We have no application fee, we've been test-optional for the past 10 years, and we meet the full demonstrated need of all admitted first-year students who qualify for financial aid.

Financial Aid
https://new.sewanee.edu/admission-aid/cost-financial-aid/

Investing in private education is a substantial commitment. Support from alumni and our endowment provides funding that allows us to meet the need of entering students, beginning fall 2020, with a combination of scholarships, grants, work-study and a federal student loan.

Yale students enroll in four or five courses each semester to complete a total of thirty-six courses while earning a degree. With roughly 2,000 courses offered every year, it would take more than 200 years to experience the full breadth of the undergraduate curriculum!

The main component of Yale's undergraduate gift aid is the Yale Scholarship, a type of need-based grant, but a financial aid award may include other grants and outside scholarships. For costs not covered by scholarships and grants, students and their families have options such as campus jobs and education loans.
