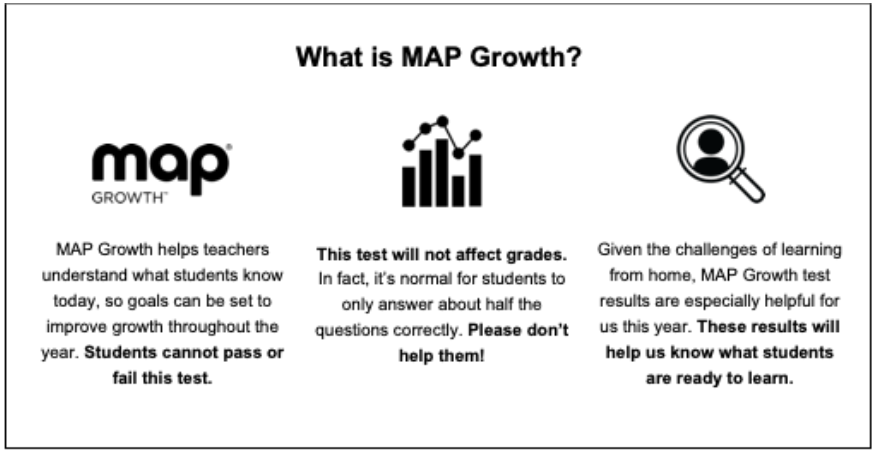
BRES Virtual Academy NWEA Testing

Next week, we will be starting our Fall NWEA testing for our Virtual Academy students. The NWEAs are required for all BRES students in grades 3-8. They provide valuable information to our teachers that help us meet all student needs. The testing for next week will be Wednesday-Friday (see schedule below). We will schedule make up sessions for students, as needed, the week of October 19th. On Wednesday the 14th, Virtual Academy students have the option to come take a NWEA test in-person at BRES at 9:00 AM. Please let Mr. Lindemann (mlindemann@aos98schools.org) know if your student will be coming in at that time for testing. Please read below for important information regarding remote NWEA testing.



Wednesday, October 14th (Remote & In-Person Options)	Thursday, October 15th (Remote Only)	Friday, October 16th (Remote Only)
9:00 AM Math Session Name: remote math Password will be emailed the day of	9:00 AM Language Session Name: remote la Password will be emailed the day of	9:00 AM Reading Session Name: remote reading Password will be emailed the day of

the session	the session	the session

NWEA Tech Information:

- All testing will be done in the NWEA App. This app needs to be updated to version 3.3 and can be updated within the Self Service App by selecting reinstall.
- If you have tech issues during the test, you will need a secondary device to contact Mrs. Hennessy by email (chennessy@aos98schools.org) or phone (633-5097)
- There are practice tests available within the app and can be accessed by using the information below:
    - Username: grow
    - Password: grow
- Once beginning the test, students will need to select "Allow" for the self-lock option that will pop up
- If you have tech issues during the test, you will need a secondary device to contact Mrs. Hennessy by email (chennessy@aos98schools.org) or phone (633-5097)
- Script needs to be read to student prior to each test (see attached)
- The NWEA test has no time limit. It is an adaptive test, so questions will increase and decrease in difficulty depending on how students are answering. There will be some questions that students don't know the answer to. This is okay! Please encourage students to do their best!
- More information on the NWEA can be found at: https://www.nwea.org/the-map-suite/family-toolkit/

Prior to testing, it is important to make sure that the device and students are ready. Information on this process for parents can be found here: https://s3-us-west-2.amazonaws.com/cdn.nwea.org/docs/ProctorDeviceReadinessExercise.pdf.
