Good Afternoon Noble Public Schools,

We have now completed Week #7 of the 2020-2021 school year. Another great week for Noble Public Schools! We are working on our plans for the upcoming Winter Activities. We understand that indoor activities are more likely to produce an outbreak than outdoor activities, but we also know that we want to provide every opportunity we can for our students. Please be patient with us as we work through many, many issues that have to be addressed.

We are continuing our practices of Social Distancing. All staff are wearing face coverings when around anyone else. Pre-K-5th grade are required to have a mask with them at all times and are masking when in transition. We are requiring masking at 6th-12th grade levels at all times, and we are all masking when in transit, whether that be on the bus, walking in the halls, moving from place to place, or doing things that prevent us from keeping our distance. We are continuing to clean and sanitize at every available opportunity. We have purchased PPE for everyone. We are also using our UVC machine to provide additional virus protection for our classrooms. Our bus drivers are cleaning their buses, our custodians are keeping our restroom facilities and buildings clean, our child nutrition workers are cleaning our kitchens and dining areas. Together, we are committed to making this year a success. Thank you for doing your part!

This week, we have 0 confirmed additional student positives, and 0 confirmed staff member positives. This is our 3rd consecutive week of 0 new positive tests! On Monday, we will have 35 students and 0 members of staff quarantined due to possible exposure from.

We understand that this situation will continue to manifest itself throughout the school year. We are asking once again for your help and support. Please check your students every day including their temperature, before you send them to school. If you have any indication that your child may be sick, please keep them at home. We are working with all families to provide a quality education while maintaining a healthy learning environment.

Fall Break for Noble Public Schools will be from Thursday, October 15th through Sunday, October 18th. Please give yourselves a well-deserved break during this time. No Virtual Work or Homework will be taking place. You have earned the time off and we want you to enjoy it with your family and friends.

Please remember that while we are doing very well, we must continue to be vigilant in Social Distancing. The minute we let our guard down or become lazy about practicing great habits, the virus will impact our school and community greatly. Please remember that flu season is quickly approaching as well. Social Distancing, Hand Washing, and wearing a Face Covering, will allow us to continue our 2020-2021 school year. Thank you for the opportunity to serve your children! Go Bears!
