

2020-2021 AMMS/HS Remote Learning Expectations for Students

General Expectations

- **Grades** - Teachers will continue to collect assignments/tests/quizzes and grade them. These grades will be recorded in PowerSchool as they would be if we were attending school in the building. Students will be expected to do what is assigned and have it submitted, sent, etc., on the date and time teachers provide.
- **Attendance** - Attendance is **mandatory**. This was not determined by the school district. It is required by the state. All teachers are expected to take attendance at the beginning of every class period. If a student is late joining a class, that will be counted as a tardy. If a student does not join a class at all, that will be counted as an unexcused absence. If a student leaves class early, that will also be counted as an unexcused absence.
 - Office personnel will make phone calls to parents/guardians beginning at 3:00 pm each day. This will be to determine any reasons the student may have been absent or tardy. It will also provide parents/guardians with information about their student's attendance.
- **Schedule** - Below is a color-coded calendar for October. It tells students if they are attending classes for Blue Days or Gold Days. (There is no school on October 16th which is why it is grey.) Also included is a color-coded schedule with the class times for Blue or Gold Days.

ADDITIONAL INFORMATION

During the times scheduled for **Jet Connect**, teachers will be available to answer student questions and assist students as needed. Teachers can be contacted by email and a video conference or chat can be set up if needed. This is not considered a "free time". Students should be working on assignments if they have them. We want to make sure students have time during school hours to get all work completed and submitted.

Technology Notes From Mrs. Sizemore

- Video conferencing for classes will be through **Blocksi**.
 - When your class is scheduled to begin, your teacher will connect you automatically on your Chromebook. You need to ensure that your Chromebook is charged and/or plugged in and connected to a wifi network!
 - **Once each class begins, you MUST toggle your camera on (and leave it on) in order to be counted as present throughout the class period.**
 - Only the teacher can see you, no other students can see you.
- During Jet Connect times - individual meetings with teachers may take place via Zoom or Google Meet.
- IF you are having ANY tech support issues, I will be available to assist during afternoon teacher office hours. Email: helpdesk@usd387.org to get on the tech support list!
