### Important Information for CCS District Parents, Guardians, Students, Faculty and Staff

Please scroll through each of the attached four graphics on face masks that are recommended for use by students and adults. **Please note that the Centers for Disease Control (CDC) DOES NOT recommend the use of neck gaiters, bandanas, or face shields without a mask underneath in schools.** Therefore, effective immediately, we are asking that all students and adults in our buildings wear the appropriate masks as outlined in the graphics attached. As we receive more guidance we will forward that to you, but in the meantime please do not use a neck gaiter, bandana, or face shield without a mask in district buildings.

Thank you,  
Romona Wenck  
Interim Superintendent
