October 13, 2020

Dear Students, Families, and Community Members of the Milton-Union Schools:

On Tuesday, October 13, 2020, the district received verification of two, positive COVID-19 cases. One positive case involves a staff member, and the other involves a student case affecting Milton-Union Elementary School. District staff members completed contact tracing with assistance from Miami County Public Health, and in both cases, the appropriate students, parents, caregivers, and additional staff members identified as close contacts were communicated with directly regarding next steps.

Recent employee and student test results are not interrelated, and even when considered together, do not indicate any significant spread. To date, positive cases have not been linked with any school-related virus transmission. Consequently, the district has no further plans to alter any school or building schedules.

Not only will the district remain committed to safety protocols, but we will also strive to maintain the privacy of and confidentiality for our students, families, and employees. We hope everyone can remain mindful of safe practices and healthy decisions among our students, staff members, parents, and caregivers both in and outside of school. As always, thank you for your continued support, understanding, and patience.

Respectfully,

A handwritten signature in black ink that reads "Brad Ritchey".

Brad Ritchey, Ph.D.
