Re: Google Classroom Platform

All teachers will be using the Google Classroom platform. Using one platform will hopefully assist parents in helping their children during remote learning.

Google Classroom allows teachers to create an online classroom area to store materials, assign work, link other websites, and allows students and teachers to virtually interact. Many of our middle school students are very familiar with google classroom and use it fluently. We will be spending a great deal of time in the beginning of the year assisting our younger students in how to access this platform and use it with ease.

Teachers will all have a link on their blog for you to be able click on and be sent directly to your child's google classroom so that you, as a parent, can monitor what they have for assignments and what they have completed.

I have included a video done by Mrs. Larrivee explaining how to access and use google classroom.
