

# COVID 19 Dashboard

## Mode of Learning for Week of October 19th

The Bangor School District will provide a weekly update on the COVID conditions and factors for the anticipated future student learning mode based on the Harvard Global Health Initiative Framework. The District will share data each Wednesday from the previous week.

Data for week of 10/5/20-10/11/20

### Bangor School District Framework for Mode of Learning Decision Matrix

The matrix below uses the total population (10,400) of the seven municipalities that make up our district. **Case rates are from the La Crosse County Health Department.**

Metrics	Number	District Status
7 Day Case Rate Per 10,400 (Metric A)	< 1.04	Yellow

**\*\*Metrics are from the La Crosse County Health Department Coulee Collaborative Model.**

Primary Metrics	Number	County Status
<a href="#">7 Day Case Rate Per 100K (Metric 1)</a>	26.9	Red
<a href="#">7 Day Positive Test Ratio (Metric 9)</a>	9.9%	Orange
Secondary Metrics		
<a href="#">7 Day Origin - Close Contact % Case Demographics: Origin</a>	65.2%	Orange
<a href="#">Case Rate Trend (Metric 1 Component)</a>	Decreasing	Yellow

**\*\*Case rates are from the Monroe County Health Department.**

<a href="#">Monroe County Daily Case Rate Per 100K (Metric C)</a>	33.7	Red
---	------	-----

Status Statement: The metrics and data indicate the following for the week of October 19th.

- In-person learning for grades PreK-5
- In-person learning for grades 6-8
- Hybrid learning for grades 9-12

The next status update will be provided on October 21.
