

Connell High School Senior Projects

Senior Projects are a requirement at Connell High School. Students are to coordinate with their junior-level and senior-level English teachers to complete a project that serves our community and/or gives them experience in a potential future profession. Students then present what they did for their Senior Project during the spring of their senior year. All requirements for projects and presentations will be discussed in class as they are subject to change.

Students in Running Start should contact Mr. Stephens at nstephens@nfsd.org to discuss and plan a project during the end of their junior year.

Please contact Mr. Stephens at nstephens@nfsd.org if you have any questions.
