Wynne Police Department

Internet Safety

Social Media

Social Media

You have access to an entire world of strangers in your pocket.

This is a huge responsibility and not always a good thing.

Some people don't have your best interests in mind.

Do you really know who you are interacting with?

What Social Medias are you currently on?

Facebook?

Snapchat?

TikTok?

Instagram?

Whatsapp?

Reddit?

Tumblr?

You spend more time on social media than we could ever know.

You have to make good decisions while online.

You're at the age now where your actions can become criminal and you can be held liable in court for those actions.

What am I putting online?

What kinds of things should you put online?

Do you know all of your online friends?

Just because it disappears after you see it doesn't mean it's gone forever, I'm talking to you SNAPCHAT!

Don't put anything online that you wouldn't want the police, your parents, or your worst enemies to have access to.

You never know who you are talking to online. Just because people say something online doesn't make it true. People can be whoever they want while online.

Believe it or not we can still get access to all of your past snaps. Think about that for a minute.

Teenage Depression

This is an extremely difficult time
in your lives. Old people
understand. We were there one time
too.

Being a Teenager is Hard

Think about how you feel before you treat someone else poorly.

If you see someone struggling, ask “How can I help” instead of just walking by or making it worse.

Everyone is going through their own struggle. Do we really need to make it worse?

IT'S OK TO ASK FOR HELP

Studies show that teens are increasingly anxious and depressed.

Find an adult that you trust and ask for help.

I promise someone will help you.

“This is a super-important motivational quote”

- From some celebrity

You're going to go through bad stuff. But it will get better. If it gets bad, reach out to someone.
