

Dear Parents/Guardians:

Greetings! It is my pleasure to be your child's Pre K teacher for the 23/24 school year. I go by "Ms. Laura" to my students, and I have been a teacher for 8 years after having graduated from UNM in 2015. I am raising 3 grandchildren here, they are in 3rd, 6th, and 7th grade with the Penasco school district, so I am very much invested in how our school works. To me, getting our little ones off to a good start in school is my number one priority. I feel that it is my job to get these kiddos hooked on and loving school by the time they reach Kindergarten! That being said, I am over-the-top excited about all of the really cool learning activities and toys we have to explore this year. My personal goal for this year is to involve all of you as much as possible in the learning process, so come on into school and let's have some fun! The district's goal is to raise growth proficiency by ten percent in both ELA and Math while providing enrichment and support to all of our students, and while we aren't experienced scholars yet, the district's goal gives Pre K something to strive for and to build our foundation on. We may be Pre K today, but we are tomorrow's star students!!!

Welcome to the first step of a wonderful educational experience!

Sincerely,

Ms. Laura Greenfield
