

Hello to all!

This is Mr. Richardson. I wanted to welcome everybody back for the 2023-2024 school year! I will once again be teaching Tiwa K- 8th, and Math for Middle School.

For Tiwa, I plan to review what we worked on last year. We will be taking single words and applying them to sentences. We will be writing more conversation pieces, and increasing participation in regards to dancing. I encourage you to sign up your students for Tiwa so we can have a strong enrollment this year!

For Middle School Math, we will be using Math 180. I will also be one of the new Study Skills Teachers. I look forward to working with you all and investing time into our students.

Please contact me for more information,

Mr. Richardson
