

AOS #47
Airline, Dedham, & Orrington School Departments
19 School Street Orrington, Maine 04474

Dear Airline, Dedham and Orrington Families,

10/21/2020

We received a notice that the Bangor YMCA had an employee test positive with COVID. The YMCA shared that they have contacted the parents of those students who have been affected and will be able to reopen the majority of their programs. You may contact the Bangor YMCA's offices in Bangor if you have any questions.

Some students will be taking extra precautions at this time and staying home, though no one in an AOS 47 school has been identified as positive. All contact tracing has been completed, so anyone deemed a close contact with the person who has tested positive has been called and given the support they need in this situation. I want to reassure you that the AOS 47 School Departments will continue to follow all CDC and Maine DOE protocols to keep our students and staff safe.

This is another reminder that we all need to continue to stay vigilant and follow the guidance from the CDC: Continue to wear facemasks in conjunction with other PPE, social distancing, frequent hand-washing and pre-screening. If you have any questions at all, please do not hesitate to call my office or the office of your local school.

I am thankful for all of our communities continued support,

James Stoneton II, Superintendent of Schools
