Dear Unit Seven families,

There have been many questions raised about travel restrictions, so here are the most up-to-date recommendations.

Travel to a country outside the United States: 14 days quarantine upon arrival back home and COVID tests (with negative results) on day 1 and day 5 after arrival back home before child can return to school.

Domestic travel within the United States: case-by-case basis, depending on the risk of exposure. (examples: driving to a campsite for the weekend is low risk; flying in an airplane to Florida or going to an amusement park is high risk) **High Risk Travel:** at least 5 days quarantine upon arrival back home. COVID test (with negative results) on day 4 or 5 upon arrival back home before child can return to school. Staying home as long as possible after high risk domestic travel is considered best practice.

If you have travel plans or have any questions about traveling, please contact your building school nurse.
