**Join us for Kaiser Permanente Northwest's virtual open enrollment**

Understanding your health benefits should be simple — and with the right tools, it is. As we all adjust to new habits like physical distancing to help stop the spread of COVID-19, Kaiser Permanente is here to support you through open enrollment with virtual services.

Employees covered under SEBB can conveniently access open enrollment information from Kaiser Permanente. Whether you're already a member or are thinking about joining, we'll help you get the information you need to make an informed decision about your health coverage.

We invite you to connect with us and take advantage of our virtual open enrollment from your home or workplace.

**Recorded presentation**
