Why Join Scouting?

Parents

Your child is at an age where everything is **new & fun.**

They live in a world of **firsts**: first home run, first campfire, first checkered flag.

Their plan is lead by their imagination. Their most valuable reward is their friends and your proud smile.

Cub Scouts is a year-round program boys and girls can join at anytime and is flexible to work with other community programs. You join Cub Scouts as a family and you help your child along the way. Scouting is designed to help even the busiest parent get involved.

Adventure

The things Cub Scouts do are the things kids love. They get elbow deep into projects, games, and get a chance to try new things and see new places.

Success

Cub Scouts are prepared in a way other kids are not. They learn and grow through nature programs, STEM activities, fitness and life-long skills.

Responsibility

Your child will learn at an early age the importance of character, making proper decisions, teamwork, respecting others, and being sustainable in the environment.

Leadership

Through their participation in Scouting, your child will learn to be a leader — in school, among friends, and at home. The program challenges kids to do their best: as a leader, teammate, and on their own.

Scouting is the premier character development program for boys and girls in Kindergarten through age 20.
