***COVID-19 ANTIBODY TESTING
SARS CoV-2 antibody testing is performed on all
donations. We will be conducting this test as we
continue to fight the ongoing COVID-19 pandemic
with the help of our donors.**

Blood Drive

See reverse for more details!

The need for blood continues to be ongoing during the Covid-19 epidemic. The medical community has also discovered that plasma from people who have had and recovered from Covid-19 can be crucial in helping those currently battling the virus. Anyone who donates blood with Versiti will have antibody testing for Covid-19 done at no charge!!! Your results will be available to you in approximately 2 weeks.

In order to comply with CDC regulations and in the interest of safety, this will be an appointment only event.

- Strict social distancing and masks required.
- 16 year old participants will need a signed parental consent.
- Donors should eat a good meal the night before and the morning of donation.
- Donation typically takes 45-60 minutes.
- Remember to dress in layers as you will be “rolling up your sleeves” to save lives!
- All community members will enter and exit via the outside doors to the middle school gym and will not be allowed into other areas of the facility.

Please contact Jessa Payne, District Nurse, at 715-695-2696 Ext#109 or at paynejessa@esschools.k12.wi.us with questions.
