

2017 - 2018 Gtown Elite

March | Empathy, Problem Solving, Creativity, and Communication

Elementary

Makenzie Hoskins is extremely bright and amazes me daily with all the things she can do! Her impressive creativity not only shines through in her artwork and writing, but is also a critical skill for her problem solving! Makenzie is always willing to jump right in to any situation and offer up creative and interesting ideas or solutions to help anyone out! She is a valued and respected member of our classroom family!

Kendal Newberry is very creative in her drawings and how she problem solves certain situations. She is always empathetic with other students when they are struggling. Kendal does a great job in communicating not only with her peers but also her teachers. She is a great student to have in class!

Lyndi Wallace is a very creative and unique student. She is always striving, not only to complete her projects but to create the most elaborate and exciting piece she can. She uses her imagination in a non-conforming way to create and complete her assignments. Lyndi is passionate about her work.

Mason Watson is a very thoughtful and kind student who shows empathy to other students and teachers. He is always trying to find a way to solve problems while working on projects and in various situations that occur in the classroom. He is very creative in his thoughts and not afraid to communicate his ideas with others. Mason is always cheerful with a bright, positive attitude.

Jr. High / High

Avery Adams is an amazing young lady. Avery emphasizes with her peers and daily life struggles. She is helpful and goes out of her way to comfort others. Avery is a vital part of the yearbook and daily student activities. She is thoughtful and brings lots of creativity to all that she is a part of. Avery is the go-to person when her classmates need to be notified of changes and events. Avery makes a positive difference every day.

Laike Dennis is very friendly and has a likable personality. He oozes with creativity when it comes to making films. He can visualize exactly what he wants to accomplish and convince his peers to help him pull it off. His creativity and problem solving skills help him to consistently create high quality and entertaining end products in his HS Techno Arts class whether he is acting, directing or editing.

Destiny Perkins is a wonderful young lady. Destiny is one of the sweetest students and she is supportive of her classmates in all capacities. Destiny's artistic talents are impressive and she is quick to help out on all projects we pass her way. She offers solutions to get things done. Destiny has assumed a large role on the yearbook staff. Destiny helps in the office. We are very lucky to have her assistance.

Adrian Waltz may fly under the radar in most classes but in Techno Arts has become one of the best camera people and editors in his class. Unlike many of his peers, Adrian does not give up until he has the perfect shot for his film. His problem solving skills give him the ability to find creative solutions to help him rise above his classmates. Adrian is consistent and persistent in his pursuit of producing only the highest quality movies for his class projects.
