

ACAB- Emergency Plans & Drills

Emergency Plans

The goal of an emergency response plan is to ensure an organized, efficient, and effective response to life-threatening emergencies. The Superintendent in conjunction with principals, relevant staff members, and emergency response personnel shall develop an emergency response plan based on a district-wide threat assessment. The plan shall contain procedures for responding to threats; medical emergencies; natural disasters; and manmade disasters, including, but not limited to, nuclear attacks, terrorism, and other acts of violence.

Creation of an emergency plan does not guarantee that a trained responder will be present, able to properly respond to the situation, and/or able to properly administer first aid.

Dissemination

Threat response and emergency evacuation plans are exempt under the North Dakota open records law and will only be disseminated to individuals with a genuine need to know.

Emergency Drills

The emergency response plan shall contain a means for evaluating its effectiveness, including provisions for carrying out emergency drills. The Superintendent shall implement, fire, tornado, and other emergency and/or disaster drills in accordance with law.
