

## **FBD - Admission of Non-Resident Students**

The district shall admit students from other Districts to its school when it can be done without injuring or overcrowding its schools. When students are received from a District that does not offer the grade level in which the student requires enrollment the Board must charge tuition to the sending District, as prescribed by law. When a student has been placed at a group or residential care facility or a residential treatment center in accordance with NDCC 15.1-29-14, the Board shall charge tuition to the sending district unless a waiver of tuition agreement has been entered into with the sending district. Students who wish to transfer from schools that have been deemed in need of improvement under Federal and/or State law shall be allowed to transfer to a school in this District, if there is no school in their home District that is not so designated. It shall be the policy of this District to charge tuition, or enter into waiver of tuition agreements when permitted to do so, when neighboring Districts request admittance for their students. The Administration shall determine which school(s) in the District will receive such children. The District may also admit students whose tuition is paid by a parent or guardian.

Admittance of students under open enrollment law will be governed by Policy ABCBB/FBDB (Open Enrollment). Enrollment of homeless students as defined under the McKinney Vento Homeless Assistance Act will continue to be governed by policy AACE/FBBD - Education of the Homeless.

Any student who has been suspended, expelled, or has suspension or expulsion proceedings pending from another District will not be permitted to enroll in the District until eligible to reenroll in his or her former District or until the Board or the Superintendent has reviewed the prior suspension and determines that the suspension or expulsion was illegal or improperly given.
