

FCAA - ACCOMMODATING STUDENTS WITH ALLERGIES & SPECIAL DIETARY NEEDS POLICY

Each building principal shall implement procedures for identifying students with life-threatening allergies and shall develop general exposure avoidance measures.

The Board recognizes that students with medically documented life-threatening allergies are considered disabled and are covered by the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. A clearly defined 504 Accommodation Plan will be developed and implemented for all such identified students. Appropriate staff, the parent/guardian of the student, and the student's physician shall sign these plans.

Relevant staff shall be made aware of 504 plans, the measures needed to implement them, methods to reduce risk of exposure, and emergency response procedures in the event of exposure.

Complementing NDSBA Templates:

- FCAA-AR, General Guidelines for Reducing Risk of Exposure to Allergens
- FFF, Field & Other School-Sponsored Trips
