Jason A. Smith, Superintendent

October 29, 2020

Dear Parents,

As the challenges of 2020 continue to confront us, I remain proud of the way our District, staff and students have responded. I am writing to share with you an update related to staffing at our Middle/High School.

Effective November 2, Principal Aaron Slack, a certified and former English teacher, will be temporarily assuming a full-time English teaching assignment at the Middle/High School. **Please note, this vacancy in the English Department is NOT related to COVID-19.** Dr. Slack has graciously agreed to serve in this role as we seek to provide a long-term solution for staffing in this department for our students. We appreciate all of our talented and dedicated substitute teachers, but it is important that our students receive consistent instruction.

I will assume the role of Middle/High School Principal during this temporary period and will maintain my current responsibilities as Superintendent of Schools. My administrative colleagues will provide support and assistance as needed during this period, but the responsibility will primarily be mine. Our Dean of Students and Counseling Office will continue to assist, and I thank them for their continued support and commitment.

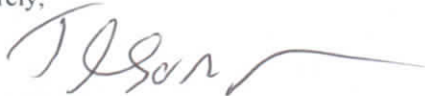

It is important to note these staffing changes will not incur any additional financial burden on the District and are temporary.

Our District is committed to providing our students with high quality instruction in all areas, and this model will serve us best moving forward. We ask for your continued patience and understanding as we all adjust to these temporary roles and additional responsibilities.

Please contact me directly with any questions at:
