Math Room News

The middle and high school math students returned to school on Wednesday for a fun surprise. A scavenger hunt was planned that took the students throughout the entire school looking for clues. Students started with a cryptogram in the math room which lead them to a cupboard. In the cupboard was another clue that they had to follow. The clues included mind tricks such as riddles and math problems. One example was, they had to solve an equation to come up with the year 1968, which would lead them to the 1968 picture frame in the hallway.

A big thanks to the teachers who participated and allowed the math students to bombard them randomly during the day looking for clues! Overall, the students had a good time and were rewarded for online learning.

FFA News

Nov 4th - Virtual District Officer's meeting for FFA.

Nov 30th - Dec 4th - Virtual District Leadership Conference.

District and State Affiliation Fees are due on December 1st.

Exciting Times in The Preschool

&

Kindergarten Room

The kindergarten and preschool students are going to begin an exciting new project next week. Each student will be making his or her own book. Students brought in pictures of themselves and their families which will be added to some taken in school. Each student will use pictures of him or herself to make a book that he or she can share with others and eventually take home. Older students will have the opportunity to see all of them when they are finished. They will be on display on the library countertops nearest to our room.

Pawnee School would like to thank all of our Veterans and honor each and everyone of you for your service.

Thank you!!!

Due to an increase in COVID cases in Colorado and the recent restrictions placed on social gatherings the traditional Veterans School Assembly will not take place this month.
