

Granby Summer Enrichment

Please see our course offerings below. Grade levels are based on Fall 2023 grade levels. **New this year...combine two sessions for 8:00-12:15 programming!** A snack time will be provided from 10:00-10:15 for students taking two classes. Please register using your myschoolbucks account. If you have any questions or are in need of financial assistance please contact Katie Busbey at busbeyk@granbyschools.org. We look forward to seeing you this summer!

Week 1 (July 10th-July 14th)

Drawing and Painting: Students will explore a variety of drawing, painting, and printmaking materials during this one week summer enrichment program. We will draw from our imaginations as well as from real life objects and people. We will take our art outside and draw nature and landscapes. Students will explore both watercolor and tempera paint materials to bring their art to life. Students will build their own sketchbook, which they will use to draw what they see around them. Students will turn their drawings into prints when we learn about and practice our printmaking skills. We will study a variety of artists from history to present day. Students will leave this program with a lot of new knowledge about drawing and painting and many completed paintings and drawings.

Cost: \$80

Time: 8:00-10:00 for grades 1-3, 10:15-12:15 for grades 4-6

Crazy Chemistry: Spend a week learning about chemical reactions! Baking soda and vinegar, saline and glue, oil and water are just some examples of exciting and interesting combinations students will investigate in a hands-on learning environment.

Cost: \$80

Time: 8:00-10:00 for grades 4-6, 10:15-12:15 for grades 1-3

Week 2 (July 17th-July 21st)

Sculpture and Fiber Arts: Students will explore a variety of sculpture and fiber arts materials and techniques in this one week summer enrichment program. Students will study fiber art techniques including weaving, stitchery, and fabric art. They will also explore a variety of sculpture materials including paper, clay, and found materials. We will go outside and build sculptures out of natural materials. We will study a variety of artists from history to present day. Students will leave this program with a lot of new knowledge about sculpture and fiber arts and many completed sculptures and fiber artworks.

Cost: \$80

Time: 8:00-10:00 for grades 4-6, 10:15-12:15 for grades 1-3

Games Galore: Students will play basketball, climb the rock wall, participate in scooter races, and more during the sports and games session. Come play with your friends in the gym and outside! Students should come ready to play!

Cost: \$80

Time: 8:00-10:00 for grades 1-3, 10:15-12:15 for grades 4-6

Week 3 (July 24th-28th)

Catapults, Rockets, and more: Students will use various materials to create catapults, bottle rockets and other engineering projects that meet the parameters set forth by the instructor. Whose bottle rocket can fly the highest using vinegar and baking soda as fuel? Who can make a bridge that holds the most weight using only popsicle sticks, tape and plastic cups? This will be a fun, hands-on, engineering experience for all!

Cost: \$80

Time: 8:00-10:00 for grades 1-3, 10:15-12:15 for grades 4-6

Strings: If you love your strings class during the school year, come continue your lessons during summer strings! Students will increase their playing skills on the violin through a variety of learning experiences on and off the instrument. We will explore acoustics and tone production, strengthen technique through games and song, and learn basic ensemble skills. The week will culminate in a showcase for parents/guardians.

Cost: \$80

Time: 8:00-10:00 for grades 4-6, 10:15-12:15 for grades 1-3
